Shipyard Workers Mix With Troops in Belfast District

Heavy Firing Occurred and Big Casualty List Is Feared;
Armored Car Dislodged Sinn Feiners; Curfew Order
Now In Force.

Belfast, Sept. 1.—Fighting was resumed this morning between Nationalist and Unionist shipyard workers from the Shankill district and troops. Heavy firing continued nearly half an hour and it is feared the casualty list is heavy.

North Street was thronged with shipyard workers at 8 o'clock. Suddenly there was a series of revolver shots, apparently coming from Mill Field, which is the centre of the Nationalist streets butting on North Street. Nearby military pickets rushed to the scene, took shelter behind walls and poured in a fierce fire, which was returned by snipers. The battle was accompanied by the shrieking of mill and foundry sirens.

Matters finally became too hot for Sinn Feiners and they were dislodged with the aid of an armored car. The shipyard workers in their turn to help the soldiers became a nuisance and the commanding officer ordered them to withdraw. A running battle between the opposing forces in a gauntlet of bullets, the drivers wading over their wheels and the soldiers lying on the floor.

It is definitely known that one man is killed in the North Street encounter. Bitter Fight at Dock.

There was another bitter fight at the docks between shipyard workers and union dock workers, the dockers using the shipyard employees. The latter used sticks and stones and a forceful battle was waged until the police intervened with a machine gun and the conflict. One dock worker was killed by the misdirected fire of his own party.

The total number of serious fires in Belfast since Wednesday last reached 14 this morning.

Curfew Effective.

Belfast, Sept. 1.—Enforcement of the curfew order in this city last night had a quieting effect. All persons without permits were compelled to leave the streets at 10.30 o'clock and all trams ceased running at 10 o'clock. Before midnight the streets were almost deserted, and only a few persons without permits were arrested.

There were several fires in various sections of the town during the evening, but no serious riots occurred. Although Belfast was far from peaceful yesterday, there was nothing to the wild scenes of Monday, a riotous outbreak occurred, however, the worst being on Old Lodge road on the north side of the city where soldiers fired on a mob during a riot.

Another riot took place at Castle Junction, the centre of Belfast, where Nationalists began an attack on the British, giving rise to a situation serious that troops were summoned. When the disorder continued, soldiers fired and dispersed the mob, several casualties being inflicted. (Concluded on page 4.)

MAKING PLANS TO HANDLE GRAIN CROP

Canadian Railways Endeavoring To Reduce Number of Cars Across Border

Ottawa, Sept. 1.—(Canadian Press).—Efforts are being made by Canadian Railways to reduce the number of cars on the border in order to provide for the handling of the 1920 wheat crop. In recent weeks, the balance of Canadian cars in the United States is actually falling from car shortage here, it is a hard matter to get Canadian cars back to this side of the line, where there is naturally a normal balance of about 12,000 more Canadian cars in the United States than in Canada, owing to different classes of freight added north and south.

So far as possible, however, Canadian railways are getting their own cars back and are not loading for export to United States. Mr. McLean, Canadian cars which would be available for the handling of wheat in other grain.

FOUR WERE KILLED OTHERS INJURED IN ELEVATOR CRASH

New York, Sept. 1.—Two men were killed and 16 persons injured, some seriously, when an elevator containing 18 persons fell ten stories today during the home rush in a building at 216 Fourth Ave. The car jammed at the floor, which prevented greater of life, fire department officials said it had crashed to the basement where it was killed.

MINISTER MISSING.

Port William, Sept. 1.—Rev. W. McLean, eighty-four, retired Methodist minister, is missing from his home near Flint Sliding, and search for him has been instituted. Mr. McLean was in good health, but has not been seen since Saturday, as is known.

DECORATORS DEMAND TEN DOLLARS A DAY

Twenty Thousand Men Added To New York's Idle List To-day

New York, Sept. 1.—Three more strikes, involving at least twenty thousand men, to-day were added to New York's list of labor disputes.

Fifteen thousand painters, decorators and paperhangers have voted to quit work to-morrow to enforce their demands for \$10 a day for an eight-hour day and a five-day week.

Three thousand moving men, drivers, helpers and packers, on the eve of shifting the homes for 100,000 New York families this fall, began their walkout to-day, demanding an increase of \$5 a week and an eight-hour day.

Two thousand plumbers, who presented demands yesterday to their employers, were expected to lay aside their tools to-day if their demands are not met. They demand \$9 a day minimum pay, ten holidays a year and the curtailment of overtime to urgent necessity.

These strikers do not include the one now in progress of several thousand employees of the Brooklyn Rapid Transit Company, nor the "resignations" of engineers, firemen and mechanics of the city's federal buildings, which went into effect this morning.

FORT WILLIAM AND PORT ARTHUR ALSO RAISE CAR FARES

Port William, Sept. 1.—Car fares on the Port William and Port Arthur electric line to-day advanced to seven cents with four tickets for 25 cents. Workmen's tickets have been discontinued.

NEWS OF VICTORY BOND REDUCTION CAUSED SURPRISE

Toronto, Sept. 1.—Local financial men here were completely surprised at the news of the reduction in the price of Victory Bonds. Bond dealers generally upheld the decision of the Government and the market committee is making the reductions. A large number of the members of the Toronto Stock Exchange argued that now the Victory Bonds should be traded in openly, instead of being still left in the hands of the market committee, and they claimed that if there had been open trading in the bonds there would have been a three-point drop in the price, such as started the brokers with regard to several of the issues on Monday. The question of control will come up shortly, as the agreement with the Montreal Toronto Exchange and the Bond Dealers' Association will expire on September 30.

Governor Cox Declares For League of Nations

Columbus, Ohio, Sept. 1.—Governor Cox and Dr. A. S. Watkins, two of Ohio's presidential candidates, and Franklin D. Roosevelt, Governor Cox's running mate, divided time in addressing a crowd at the Ohio State Fair here yesterday.

Governor Cox, voicing the Democratic party's stand on the League of Nations, declared for the League, and criticized the plan advocated by Senator Harding, Ohio's third presidential candidate, in his recent speech, when the latter proposed an international Court of Justice. Mr. Watkins, Prohibition candidate, criticized both the Republican and Democratic parties for not taking a stand on Prohibition, which he declared to be the paramount issue.

"Not For English League." In this discussion of the League of Nations, Governor Cox made reference to approval of the plan recently announced by Senator Harding, his opponent, by Viscount Grey, former Foreign Secretary of England. "Well," the Governor said, "we are not going to permit Viscount Grey or any other English statesman to write our agreement. We are not for an English League. We are for a world league of nations."

POLISH DELEGATES TREATED HARSHLY IN SOVIET LINES

Best-Litovsk, Poland, Aug. 30.—(Associated Press).—Tired, dirty, and disgusted, M. Dombaki, M. Grabki and several other members of the Polish peace delegation arrived here from Minsk last night and were received by Prince Sapieha, the Polish Foreign Minister, at army divisional headquarters. The Foreign Minister said that had he known sooner of the indignities suffered by the Polish delegates they would have been recalled long ago.

RAILWAY BOARD WILL SIT HERE

Bridge Plans May Come Before It At Session on October 11

The Board of Railway Commissioners will sit in Victoria October 11, according to word which was received in the city to-day. Mayor Porter has been notified of the Commission's arrival and has arranged for it to hold a session in the City Council Chamber as the Board did when it was here last year.

The chief business which will come before the Board here, of course, will be in connection with Vancouver Island railway matters. It is understood that a number of applications for permissions to install railway crossings and minor suggestions of this character will be considered. It is likely, in fact, that a large volume of business will require the attention of the Commissioners.

It is just possible, too, that the Commission will be asked to deal with Johnson Street Bridge, plans some of which it must approve before work on the new traffic bridge across the inner Harbor can commence. Questioned on this matter to-day, Mayor Porter replied that he was not in a position to make a definite statement. Whether the Commission would consider the bridge plans in the East or here would depend, he intimated, upon the City Council's decision regarding P. M. Preston should proceed to Montreal to conduct the bridge negotiations. Mr. Preston has talked the matter over with the Mayor and will make a recommendation on the subject to the Council in the Streets Committee Friday. It is possible that the Mayor may call a special meeting of the Council to consider the matter, though the Streets Committee could take action subject to its own approval in regular session. (Concluded on page 4.)

FLOUR REDUCTIONS ALL ALONG LINE

Prospects of Cheaper Bread Quickened By Drop In Various Grades of Flour

Montreal, Sept. 1.—Prospects for a decrease in the cost of bread were further quickened yesterday when the leading Canadian Spring wheat millers announced considerable reductions in the price of new crop spring wheat flour, the announcement coinciding with the exit of the Canada Wheat Board, with prices running from \$1.19 to \$1.30 lower than the Government standard flour was selling at. The price for first patent was announced at \$1.25, with similar reductions all along the line for various grades used by bakers. The millers also announced a decline of six cents a barrel in the price of Government standard Spring wheat to \$14.25 a barrel.

FOR ALL FOUR GIRLS

Popularity Contestants Meet To Protect Themselves Against Generous Voters

Miss Irene Craig, of the British America Paint Co., is to-day leading the most popular girl contest staged by the Victoria and Island Development Association.

At noon she had a lead of nearly 300 votes over Mrs. W. H. Davies, the entrant of the Vancouver Island Athletic Association, and about 2,700 over Mrs. Anna Darius, the war widow of Gordon Head.

Miss Sarah Watson, of Stevenson's, who has been gradually getting under way, brought in nearly 4,000 votes in the race near the others.

So fast are votes coming in that the tallying forces at the Development Association office have been unable to keep up with the ballots as they come in. It is likely that the final result of the contest will not be known for a couple of weeks.

THE KING FUND

A short time ago an appeal was made through the press on behalf of the family of the late William King, who, with his daughter, lost his life at Goldstream. The public responded generously, but a few days ago certain facts came to the attention of The Times in view of which it was deemed desirable to close the list.

The list was opened at the express request of the Rev. J. I. Batty, pastor of the church which the late Mr. King attended, and this paper received the impression that the family was destitute. Subsequently reports became current to the effect that the late Mr. King was insured for \$250.

An investigation disclosed the following facts: Mr. King held a policy in the Metropolitan Insurance Company for \$1,000; his daughter was insured for \$250. In addition to this, as an agent of the company he was entitled to a further \$2,000, under a system adopted by the Metropolitan Insurance Company by which an agent who has been engaged in field work for one year receives a policy for that sum in the event of his death while in the employ of the company. Therefore, Mrs. King will receive \$2,250 insurance, representing the policies carried by her husband and daughter. In view of these facts, unknown when the list was opened, The Times feels in duty bound to return the contributions to the donors, who may obtain same on calling at this office.

The names of men who vote more than one candidate are being listed. (Concluded on page 12.)

Most of Wheat Crop Is Stooked; No Frost Damage

Winnipeg, Sept. 1.—No reports of frost damage have been received from any district in the three prairie provinces. During the last three days cool, showery weather has been general, but as most of the crop was cut and stooked no serious damage is expected. Some reports that fall plowing will be greatly facilitated by the abundant moisture.

Poles and Ukrainians Recover Greater Part of Eastern Galicia

Warsaw, Aug. 31.—Polish forces advancing toward Grodno have nearly reached the banks of the Neiman River, which flows toward the north past Grodno.

The great part of Eastern Galicia has been recovered by Polish and Ukrainian troops, who are masters of all the left bank of the Dniester River. Pursuit continues of the Bolshevik forces which appeared along the Upper reaches of the Bug River near Sokol. In the region twenty-five miles southeast of Lemberg the Poles have scattered Soviet forces that attempted to start an offensive operation. General Pawlenko's Ukrainian columns which crossed the Dniester River south of the city of Bucaras have developed their offensive successfully obliging the Bolshevik west of the Sereth River to retreat hurriedly in order to avoid being surrounded.

ARMENIANS WERE CRUCIFIED AND BURNED IS REPORT

New York, Sept. 1.—Details of the massacre of Armenians by Turkish Nationalists at Yozad, Anatolia, were given the Near East Relief Society to-day by Charles Farham, of Wheaton, Ill., who recently returned from Asia Minor. Peasants fleeing to Cassara, from Yozad told of the crucifixion of men, women and children, the burning of others by the Nationalists and mounted Circassians who stormed the town early in July, forcing the defenders to surrender.

JAPAN FINANCES HER INDUSTRIES

Government Offers Assistance to Offset Serious Business Depression

Washington, Sept. 1.—Financial assistance is being offered by the Japanese Government to certain industries with a view to preventing a serious business depression. Commercial Attaché James F. Abbott at Tokyo to-day reported to the Department of Commerce.

Considerable sums of money have been deposited with private banks by the Bank of Japan for the use of silk, cotton and sugar manufacturers, the attaché said, enabling the payment of a better price for raw materials.

According to the latest statement of Japan's Department of Finance, 2,072 banks were operating in that country with a combined capitalization of approximately \$900,000,000.

FIND MEN VOTING FOR ALL FOUR GIRLS

Popularity Contestants Meet To Protect Themselves Against Generous Voters

Miss Irene Craig, of the British America Paint Co., is to-day leading the most popular girl contest staged by the Victoria and Island Development Association.

Winnipeggers Now Pay Seven Cents to Ride on Cars

Winnipeg, Sept. 1.—Street car fares to seven cents, with four tickets for 25 cents. Suburban fares went up in proportion. A newspaper statistician estimates that ten per cent. of the usual number of city passengers or 15,000 will walk to work or pleasure, until they become accustomed to the new rates.

Lord Mayor of Cork IS SINKING RAPIDLY

Terence MacSwiney Spent Restful Night in Brixton Prison, But Very Weak

Complete Numbness of Limbs Has Developed and Prisoner Cannot Speak

London, Sept. 1.—Lord Mayor Terence MacSwiney, of Cork, spent a restful night at Brixton prison and secured several snatches of sleep. Although very weak, he was bright and cheerful this morning. There were, however, unmistakable signs of severe emaciation, dullness of the eyes and general signs of sinking as a result of his long hunger strike.

Mayor MacSwiney's brother remained with him during the night. Change For Worse.

London, Sept. 1.—Terence MacSwiney, Lord Mayor of Cork, who has been on hunger strike since August 12 in protest against his arrest by the British authorities, suffered a change for the worse last night in Brixton Jail, this city, where he is confined.

Late morning editions of London newspapers say he is sinking rapidly. A complete numbness of the limbs has developed, and MacSwiney can no longer speak because of weakness, it is said.

Appeal to King.

Lord Stamfordham, private secretary to King George, has replied to a letter from Horatio William Bottomley, member of Parliament, urging the release of MacSwiney. He told Mr. Bottomley that even if the King favored the release of the mayor, it could be effected only by the Sovereign's personal action in the face of the advice of his ministers, with the presumable result that there would be a grave political crisis at the time.

Threatens New Offensive.

Warsaw, Sept. 1.—(Havas).—George Tchitcherine, Russian Soviet Foreign Minister in a wireless message to-day said he is pleased to note the Polish Government has declared itself in favor of peace, but threatens a new offensive if the Poles "do not conform their acts to their promises."

Tchitcherine asserts that the fighting power of the Soviet armies has been diminished by the loss of Poland's answer.

Washington, Sept. 1.—Poland has answered the admission of the United States that the Polish armies are at the strategic frontier of Poland with the statement that strategic conditions must govern Poland's course.

Cricketers Prefer Poisoned Variety of Binder Twine

Lacrosse, Wis., Sept. 1.—Farmers near this city complain that harvesting has been seriously hampered by crickets eating binder twine. Farmers who soak the twine in poison declare the crickets eat it quicker than the untreated twine.

HANGAR ACCIDENT; SEVERAL VICTIMS

Sydney, N. S., Sept. 1.—Thomas Shaw was killed, George Gallipah had his skull fractured and several others were seriously injured when the airplane hangar at North Sydney collapsed yesterday afternoon. The hangar was in process of dismantling, preparatory for shipment to Tokyo to-day.

Two many of the lower supports had been taken away and the superstructure, composed of steel rafters, collapsed.

THE KING FUND

A short time ago an appeal was made through the press on behalf of the family of the late William King, who, with his daughter, lost his life at Goldstream. The public responded generously, but a few days ago certain facts came to the attention of The Times in view of which it was deemed desirable to close the list.

The list was opened at the express request of the Rev. J. I. Batty, pastor of the church which the late Mr. King attended, and this paper received the impression that the family was destitute. Subsequently reports became current to the effect that the late Mr. King was insured for \$250.

An investigation disclosed the following facts: Mr. King held a policy in the Metropolitan Insurance Company for \$1,000; his daughter was insured for \$250. Triple Alliance Lends Support to Claims of Miners

Committee Passes Resolution Declaring Demands Reasonable and Worthy of Consideration; Conference Not Favorable to Negotiations.

London, Sept. 1.—The Evening News asserts that the Triple Alliance of Labor—the Railwaymen, Transport Workers and Miners—will not adopt mediation measures between the miners and the Government. On the contrary, the newspaper says, the railwaymen and transport workers have pledged full and active support to the miners should a strike be decided upon at to-morrow's conference of delegates of the three unions.

London, Sept. 1.—Consideration of the policy to be followed by the "Triple Alliance" of Labor regarding supporting the projected miners' strike, was resumed when the executive committee of the three great unions re-assembled here this morning.

The committee of the organizations—the Miners' Federation, the National Union of Railwaymen and the Transport Workers—discussed the miners' strike vote at a joint session last evening. Later the miners' representatives withdrew and delegates from the other two unions continued the meeting, all the leaders of both unions being present. The meeting resulted in the passage of a resolution declaring that the miners' claims were both reasonable and just and should be considered at once. While this resolution does not necessarily mean a strike, it will without doubt greatly influence the situation, and was somewhat of a surprise, as it was considered doubtful that the "alliance" would support the miners.

Many Did Not Vote.

Considerations bearing on the situation are the fact that two-thirds majority favoring a strike was obtained by a narrow margin and the further fact that approximately four hundred thousand miners did not vote, and probably may be regarded as opposing a stoppage of work. These may check the extremists, as the general public and British industries are generally against a strike. It would therefore not be surprising should the conference to-day decide to move to explore the path of mediation.

SMALL MYSTERY STILL UNSOLVED

Reward of \$50,000 For Information Regarding Millionaire, Expires

Toronto, Sept. 1.—The offer of a reward of \$50,000 for information as to the whereabouts of Ambrose J. Small, the millionaire theatre owner who disappeared from this city on December 20 last and has not since been seen or heard from, expires automatically to-day; also the offer of a reward of \$15,000 for the recovery of Mr. Small's body, if found dead.

Dr. G. B. Connolly, president and managing director of the Capital Trust Company, trustee of the Ambrose J. Small estate, said last night that he did not know whether the offer would be renewed or not. He said he probably would confer with Mrs. Small and her solicitor, Frank Hughes, soon, with reference to this question. Nothing of a tangible nature has resulted from the offers of the reward, he said, although they had been productive of a great deal of effort on the part of the police forces and detective agencies all over the world.

There is a reward of \$5,000 for information leading to the arrest of John Doughty, Mr. Small's secretary, who disappeared on December 24, 1919. Warrants are out for his arrest on a charge of kidnapping his former employer.

CHURCH RITES TO HUNGER STRIKERS

Father Bernard Vaughan Submits His Views on Widely Discussed Subject

London, Sept. 1.—The question has been widely discussed here recently as to whether it is justifiable to give the last sacrament to hunger strikers, that is, to all those who are committing suicide. Father Bernard Vaughan, famous for his sermons and writings, to-day made the following statement to the Press Association regarding the subject:

"Personally, from my reading of theology, moral and dogmatic, I should not feel entitled to administer the rites of the Church to anyone, no matter what his nationality, who was deliberately dying through a hunger strike. But I am free to admit that other theologians, far more learned than I am, would reverse my verdict on the subject."

"Some moralists there are, who deny that hunger striking cannot be justified; others have drawn a distinction between objective truths and subjective error. But, as you are asking for my personal view of the subject, I give it for what it is worth without comment upon any one who may differ from me."

JAZZ CURFEW IN BOHEMIAN QUARTER OF NEW YORK CITY

New York, Sept. 1.—Quaint Greenwich village, New York's Bohemian quarter, famous in song and story as the home of New Thought, has something new to occupy its front—a jazz curfew at 11 o'clock nightly. This ultra-modern idea was not of the village's own initiative. It will be decreed by a matter of fact magistrate in Jefferson Market court, who ordered the clanking of cowbells and the moaning saxophone, to cease their jangle in a tea room an hour before midnight, in order that complaining nearby tenants might sleep.

COTTON PRODUCTION.

Washington, Sept. 1.—Cotton production this year was forecast to-day at 12,735,000 bales by the Department of Agriculture, which is 10 per cent. more than the condition of the crop August 25, which was announced as 67.5 per cent. of a normal.

British Republic Was Plan of Conspirators

Vancouver, Sept. 1.—That a plot to overthrow the British monarchy and establish a republic in Great Britain was hatched during the war is the statement made by Dr. Ellis Powell, of The London Financial News, a member of the Imperial Press party which left Vancouver on Monday. Dr. Powell was one of the men responsible for the exposure of the conspiracy and in an interview which he gave before leaving the coast he reiterates the assertion that the danger outlined is not yet past.

After referring to the alleged Sinn Fein plot to assassinate King George, Dr. Powell declared that "his danger and the menace to the British throne do not originate among the Sinn Feiners, but among scheming British politicians, men of boundless ambition."

Dr. Powell said: "There was a huge republican plot hatched during the war with the idea of seizing a favorable moment for the deposition of the King and the proclamation of a republic. The president of the conspirators are still anxious to effect their aim. That is the reason why the revolutionary elements are fostered among us."

Dr. Powell said: "There was a huge republican plot hatched during the war with the idea of seizing a favorable moment for the deposition of the King and the proclamation of a republic. The president of the conspirators are still anxious to effect their aim. That is the reason why the revolutionary elements are fostered among us."

The president of the conspirators are still anxious to effect their aim. That is the reason why the revolutionary elements are fostered among us."

WHERE TO GO TO-NIGHT

Princess—The Cinderella Man.
Royal—Yes or No.
Pantages—Vaudeville.
Dominion—Sick Abed.
Variety—Below the Surface.
Columbia—Treasure Island.
Romano—His Bridal Night.

POSTPONEMENT IS ASKED BY FRANCE

Delegates To International Communications Conference Delayed

Washington, Sept. 1.—Request has been made by France for postponement of the opening of the International Communications Conference called to meet in Washington, September 15, until October 1. The French request, based on the inability of many of the delegates to reach the United States by the earlier date, probably will be granted. State Department officials said to-day.

Great Britain, Italy, Japan, France and the United States will be represented at the conference, which is expected to consider matters of far-reaching diplomatic and commercial import.

Allegation of Cables.

The conference will have as one of its principal objects the allocation of the German submarine cables of which the Allies took possession at the commencement of the war, and thence to Shanghai and to Menado, in the Dutch East Indies, were taken over by the Japanese. The cable ends at Yap were shortly afterwards sealed by the Japanese authorities, and it has been officially reported that the cable from Yap to Shanghai was diverted by the Japanese from Shanghai to Nagasaki. Claims for the island are expected to be made by both the United States and Japan. President Wilson announced to the Senate Foreign Relations Committee upon his return from Paris last year that he had agreed to the peace conference "that the disposition, or rather the control of the island should be reserved for the general conference which is to be held in regard to the ownership and operation of the cables."

FORMER EDITOR YOUTHFUL IN SPIRIT BUT HE SUFFERED

Chicago, Sept. 1.—U. R. Daniels, 50 years old, secretary of S. W. Strauss & Company, New York, and former managing editor of the Chicago Inter-Ocean, was beaten with a horseplay in the Union Railway Station yesterday by Mrs. Charles M. Cooper, of Indianapolis, daughter of a former Indiana senator. Daniels, Mrs. Cooper and daughter were taken to the detective bureau where Mrs. Cooper told officers Daniels tempted to elope with her. Sarah Daniels, 29 years.

LORD BEAVERBROOK ON IRISH PROBLEM

Erin's Isle in Grip of Civil War, Says Canadian Member of Lords

Toronto, Sept. 1.—"Ireland is rapidly assuming a new face. It is now civil war," declared Lord Beaverbrook, the well-known Canadian member of the British House of Lords, who with Lady Beaverbrook is on a visit to the city.

Lord Beaverbrook has strong definite opinions on the Irish problem. "The North American Continent will begin to realize," he declared, "that the granting of that measure of government that Sinn Fein demands was not so simple. It will be clear from this time forward that the two nations engaged in mortal conflict were quite irreconcilable. 'Strikes of longshoremen will do no good to help the people of the wretched island. I find myself somewhat intolerant toward those who speak without knowledge. I have much sympathy for Mayor MacSwiney, but I also have a considerable fund of sympathy for the wretched women and children of Belfast, the persecuted policemen who are executed at the church doors, the soldiers who are subject to attacks from every hedge row, tree and ditch."

"I cannot understand those newspapers that devote many columns to obvious propaganda in recounting the sufferings of Mayor MacSwiney, with hardly a word for the devastated houses, desolate widows and helpless orphans of the police who have been shot down in cold blood by those who say that killing is no murder."

"It is all very well for the American newspapers—they have their public to serve—a very small proportion of the American public make an amazingly loud noise, but America will never quarrel with us on political issues."

Sir Hamar Greenwood, the Canadian Secretary for Ireland, has been a great success, having in view the nature of his duties, in the opinion of Lord Beaverbrook. "But you know," confided His Lordship, "Sir Hamar's wife is the real power in the Irish office."

"Sir Hamar is going to continue to do well. He has done so in every office he has ever held. But I don't mind saying it, Sir Hamar's wife has been of inestimable assistance to her husband in the very difficult duties of his office."

RAILWAY COMMISSION TO INVESTIGATE CASE OF EXPRESS CONCERNS

Montreal, Sept. 1.—Owing to the large number of complaints from Eastern Canada of the proposals of the various express companies in Canada for an increase in rates of 40 per cent has been decided by the Board of Railway Commissioners to hold meetings of the case in both Ottawa and Montreal.

CONTROLLER RAMSDEN IS PROBABLE LIBERAL CANDIDATE IN TORONTO

Toronto, Sept. 1.—Controller J. H. Ramsden name is suggested by the Globe as that of the probable Liberal candidate in Northeast Toronto in the bye-election to fill the vacancy caused by the retirement of Hon. Dr. H. J. Cody. The date of the election has not been given out by the Government.

ALASKA AVIATORS MEET WITH DELAY

Juneau, Alaska, Sept. 1.—Three of the army airplanes returning to Minn. after a transcontinental flight to Nome, Alaska, reached Fairbanks Sunday, according to advices from Dawson, Y. T. The aviators are reported to be installing new motors, and are uncertain when the flight will be resumed. The Dawson dispatch also states that Captain St. Clair Street, with the fourth plane, was at Ruby, Alaska, Sunday.

DE VALERA CLAIMS HE VISITED CANADA

Declares Self Determination League Is Being Organized in Country

New York, Sept. 1.—Eamonn de Valera, so-called "president of the Irish Republic," has made several trips to Canada recently in connection with the Self-Determination League of Canada, which is now being organized. He admitted this to a representative of the Canadian Press last night, but declined to give out any information regarding his little excursions into the Dominion.

"I was in Canada no longer ago than last Sunday," he said. He intimated that he had been in Montreal, but refused to state whether he visited other Canadian cities. On Sunday de Valera delivered a speech to an Irish gathering at Clifton, N. Y., near the international boundary, and a deputation of about a hundred Canadians journeyed to the Little New York town to hear him. Afterwards he had a conference with some of the leaders of the party who were interested in the formation of the Self-Determination League. He declined to give the names of those who were at the conference, saying that he considered that any detailed announcement regarding the meeting should come from the Canadian headquarters rather than from him. He declared that the new league is being successfully organized, and said that the convention held in Quebec City last week is the first of a series of provincial conventions. After the provincial organizations are complete the league is to be organized on a national basis.

The Irish "president" said that he had found many sympathizers with the Irish republic cause in Canada.

SHOOT TORPEDOES LADEN WITH WHISKEY

Liquor Smuggling Across Lake Michigan From Canada to States

New York, Sept. 1.—(By Canadian Press)—A special dispatch to The World from Washington says:

"With whiskey loaded torpedoes shooting under water across Lake Michigan, the United States launches and other craft smuggling forbidden beverages into the United States, prohibition agents of the Chicago district have their hands full enforcing the Volstead Act."

Major A. V. Dalrymple, inspector in charge of enforcement in Illinois and Wisconsin, is authority for the torpedoes. He was here to see Prohibition Commissioner Kramer concerning the possibility of strengthening the forces and to discuss other matters with headquarters.

"It intercepted one of these liquor-laden projectiles myself," said he. "The torpedo leaves the Canadian border at a moderate rate of speed under about three feet of water. When nearly spent it is picked up by one of the small boats which infest the lake. My men caught a crew of these offenders right in the act."

"The Great Lakes are filled with all kinds of launches engaged in smuggling liquor from Canada, but we are keeping a sharp lookout, and are fast getting the situation in hand. When nearly spent it is picked up by one of the small boats which infest the lake. My men caught a crew of these offenders right in the act."

ELECTION FORMS USELESS.

Ottawa, Sept. 1.—With practically all the machinery ready for the taking of a vote in the Canada Temperance Act and in the by-elections, it has been found that practically a very small percentage of the forms issued in former elections can be utilized in any way under the new Election Act.

Of the huge batch of forms issued for the taking of a vote in the past years, only about sixty can be used under the new act. These are forms which had no letters or numbers to identify them with those of the old act, and in which the new act does not in any way change the wording of the forms.

Keeps Children Well, Makes Them Robust

HERE IS GOOD ADVICE FOR HEAD OF EVERY FAMILY.

Rapid growth, work at home and in the school-room, are sure to tax the strength of every child, and often move the beginning of chain of weakness that lasts through life.

Give your sons and daughters a fighting chance! Give them good home surroundings, fortify them with education—but above all else do everything possible to insure for them perfect health in years to come.

In no way can you destroy weakness and build up health so surely as with Ferronose. It's the concentrated nourishment in Ferronose that enables it to do so much good. It contains the very elements that are needed in building up bone and sinew, in vitalizing and strengthening the blood. The appetite Ferronose brings will gladden any parent's heart, and when color, spirits, vim, and energy increase day by day then you know your grand work Ferronose is doing. Because it makes and keeps you healthy, because it is pleasant, harmless and sure to do enormous good—you and your children should use Ferronose every day. Sold by all dealers in 50c boxes, six for \$2.50, or direct by mail from the Cataract House Co., Kingston, Ont.

THIS WOMAN FOUND HEALTH

And Escaped an Operation by Taking Lydia E. Pinkham's Vegetable Compound.

Hazelhurst, Ga.—"I have used your remedies for only ten months, and they saved me from an operation. Before I took Lydia E. Pinkham's Vegetable Compound, I was so ill from a female trouble that I was for a week at a time with weakness and pain, but your medicine has done so much for me that I am recommending it to all suffering women. It certainly is a great medicine and is a sure road to health for women. You may publish this letter if you like."—Mrs. W. C. Little, R.F.D., Hazelhurst, Ga.

Women who suffer from headache, nervousness, backache, the blues and other symptoms of a functional derangement should give this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial.

For forty years it has been overcoming such ailments of women after other medicines have failed.

If you want special suggestions in regard to your condition, write Lydia E. Pinkham, Medicine Co., Lynn, Mass. The result of long experience is at your service, and your letter will be held in strict confidence.

BRITAIN'S HOUSING PROBLEM IS ACUTE

Thousands of Schemes Are Brought Forward to Solve Difficulty

New York, Sept. 1.—(By Canadian Press)—Attempts to solve Great Britain's housing problem have already brought forward upwards of 10,000 schemes involving an annual capital expenditure of \$600,000,000, according to a report by a representative of the Foreign Trade Bureau of the Guarantee Trust Company. After giving details as to various plans and the number of houses to be built in each of more than thirty cities visited, the report continues:

"The programme of the Ministry of Health—complete rehousing in three years—is about one year behind, and is costing more than double the original estimate."

"The Ministry of Health works in conjunction with the Office of Works. When a local authority defaults, the business is then entrusted to the Office of Works."

Skilled Men Lacking.

"What is keeping back housing at the present time is the fact that there are not enough skilled men to do even a quarter of the work wanted. The trades unions will not allow the number to be increased from the outside. The Government is using a sort of indirect compulsion by prohibiting 'luxury and unessential buildings,' so that a man will not build cottages he is not allowed to build anything else. There are various suggestions for speeding up the work, including a guarantee to the trade unions of employment for a term of years to men employed on housing work, to ensure them against loss of time in bad weather by a minimum wage 'wet or dry.' In return the trades unions will be asked to consent to dilution and the employment of unskilled and semi-skilled labor to give up their apprenticeship rules, and to abandon all opposition to the employment of ex-service men, trained or untrained. There are 'luxury building' tribunals to hear appeals against decisions prohibiting buildings regarded as non-essential."

Housing Campaigns.

"There are housing bond campaigns all over the country. In London subscriptions to the six percent bonds are coming in at about the rate of 100,000 pounds sterling a day. While the local governments are issuing six percent bonds, the British Government charges seven per cent. Borrowing in the ordinary way for housing schemes not financed by bonds is usually seven per cent. "The total number of housing schemes in England and Wales numbers more than 10,000, covering in all land for 800,000 houses. Of these some 7,000 have been approved with an area for 550,000 houses. In Scotland 103,000 houses have been authorized, the bids averaging about £1,000 sterling per house. This is roughly £100 to £150 more than it costs per house in England."

VANCOUVER BOARD OF TRADE ITINERARY INTO PEACE RIVER

Vancouver, B. C., Sept. 1.—The Board of Trade excursion to the Peace River District has been set for September 21, the committee in charge of arrangements announced yesterday. On Monday the itinerary was tentatively agreed upon, and this it is believed will be carried out without alteration. Advices received from Boards of Trade in the Peace River District are to the effect every facility for inspecting them could be provided. The trip will be made for the most part by automobile.

Leaving Vancouver Tuesday evening, the party will arrive in Edmonton on Thursday morning leaving for the E. D. & B. C. Railway the same afternoon for Spirit River.

Arriving at Spirit River Friday, the party will leave the train and board automobiles which will be waiting for them for the trip to Grande Prairie. Several days will be spent in the district surrounding Grande Prairie, trips being made in different directions to the interior. The trip will be as far as Pouce Coupe by motor, the country being closely inspected.

Returning to Grande Prairie the party will travel back to Spirit River, where the train will be taken for the town of Peace River. The farm lands

RECOVERY OF FRANCE IS SIMPLY AMAZING SAYS AMERICAN BANKER

New York, Sept. 1.—(By Canadian Press)—The Wall Street Journal publishes an interesting review of present conditions in France from a banker who has just returned from that country. "The recovery of France," he is quoted as saying, "is a most amazing thing."

"I never saw such a beautiful crop anywhere," the paper's correspondent said. "France is going to raise a most amazing amount of food this year. Every one works in France now. Just as soon as the potatoes were all dug they began preparing the ground for a crop of something else. This intensive cultivation

HAS BEEN WEATHER VANE OF POLITICS

Adrianople Has Been Famous
City in Past Ages For
All Kinds of Politics

Washington, D.C. Sept. 1.—"Entry
of Greek troops into Adrianople is an
event in secular history fairly com-
parable to the investiture of Jeru-
salem by Allenby's army, for this
Turkish city has for nearly 2,000
years been a weather vane of world
politics," says a bulletin from head-
quarters of the National Geographic
Society.

"The rebuilding of the ancient
Thracian town by Hadrian, who gave
it his name, signalized a high point
in the power of the Roman Empire.
The decline of Rome was forehad-
owed some two centuries later when
the Goths defeated Valens there, and
made their first break through the
Roman frontier.

"Next Adrianople was the setting
for the Turk's advent into Europe.
There Murad I. established himself,
planned the capture of Constanti-
nople, and sent out expeditions to
subdue various Christian peoples.
For a time the European capital of
the Sultans, Adrianople was relega-
ted to be the chief bulwark of Con-
stantinople. There Turk first met
Slav, and there the Russians finally
forced their way to the Black Sea
by a treaty which also loosened the
Turkish hold on the Caucasus and
compelled recognition of the inde-
pendence of Greece.

Famous in Story

"Adrianople is on the Maritza. He-
bus of Grecian legend, where Or-
pheus was dismembered by the Thra-
cian women, also celebrated, under
its later name, in Bulgarian song and
story. It is 137 miles by rail north-
west of Constantinople.

"To-day the city wears its past
glory with a coat of shabby gentility,
with no pretension of prosperity, but
less squalor than the usual Turkish
city.

"It possesses the grave of the first
Murad, or Amurath, who was assas-
inated in his tent after he had van-
quished an army of Christian allies
on the field of Kosovo.

A mosque bearing the name of
Sultan Balcid recalls that monarch,
whose first official act was to order
the execution of his brother, who was
the first Ottoman ruler to call him-
self Sultan, whose conquests finally
were checked when he was taken
prisoner by Tamerlane.

"But the architectural masterpiece
of Adrianople is the Selimiek, prod-
uct of a Greek tribute-boy's genius,
and relic of the reign of Selim II the
Louis XV. of Turkey.

Found Bridge Builder

"Nearly the Turks would seize a
certain number of sons of their
Christian subjects, and in Sinan, they
found, they had acquired a skilled
bridge builder. They allowed him to
follow his bent, and the Shahzadeh
at Constantinople, the Suleiman at
Stamboul, and the third famed
Mosque at Adrianople were given to
posterity. The Selimiek rests upon
the highest hill in Adrianople and
four lofty minarets tower far above
a massive dome.

"Formerly Adrianople was a thriving
commercial city. But its foreign
trade was reduced greatly within the
past 50 years by Russian penetration
to Turkey's dominion and by tariff
barriers of Balkan states. It is, on
the railway from Belgrade and Sofia
to Constantinople.

"Bazaars line narrow streets, and it
has been said that these, in pre-war
days, with their Austrian crockery,
German iron pieces, French jewelry,
English textiles and American phono-
graphs to do duty as 'barkers,' con-
tained 'nothing Turkish save the
dirt.' The city's population is a con-
glomeration of Turks, Greeks, Jews
and Armenians."

**BUFFET BARBECUE
FEATURE OF PRESS
VISIT TO JASPER**

Jasper, Alta., Sept. 1.—Viscount
Burnham, in cap and apron, acted
a great hunk of buffalo yesterday for
the luncheon given the Imperial Press
delegates at Jasper National Park, on
the shores of Lake Beauveir. Lady
Burnham had previously braved the
scorch of the great fire to taste the
joint with the aid of a long-handled
dipper, and the chairman of the
second Imperial Press Conference
clipped gracefully into the role of
chef as he carved and distributed
great slices of the smoking meat.

It was altogether a holiday party
which gathered under the genial in-
fluence of the Northern Alberta Press
Committee and Col. Maynard Rogers,
superintendent of the National Park,
in weather which could not have been
better. The lake was glorious under
a cloudless sky, and the knights of
pen and paper made merry in the
glow of Canadian hospitality.

Sir Emsley Carr, publisher of The
News of the World, assured his hosts,
in acknowledging the entertainment
on behalf of all the visitors, that
there was only a danger that Can-
ada's welcome to the newspapermen
who had come from all over the
world to attend the conference would
be overdone.

Col. Rogers had prepared ponies,
charabancs and automobiles for the
transport of the visitors to various
points of interest, and the ponies were
the most popular.

The wonders of Maligne Canyon
were visited in the afternoon, while
the visitors eagerly returned to Lake
Beauveir to bask in the sunshine and
color of the picturesque sheet of
water in the Jasper Valley. The party
did not return willingly to the train
to embark in the early evening for
the next stop on the journey.

A fishing party, including Lord
Apsley, of the London Morning Post;
Philip Davis, of The Natal, South
Africa, Witness, and L. Goodenough
Taylor, went to Trout Lake, near
Kamloops, for a few days, and will
not be with the party in Northern
Alberta.

POLISH EMIGRANTS.

Paris, Sept. 1.—A report reached
Assistant Surgeon-General Illus, of
the U.S. Public Health Service, yester-
day that the American steamer
Susquehanna had sailed for the United
States from Germany with a thou-
sand Polish immigrants who had not
passed the usual fumigation. The
departure of immigrants from German
ports is prohibited.

Happiness rests on justice, justice
on morals, and morals on religion.—
The Dean of Lincoln.

VICTORIA'S WEATHER.

In their campaign to popularize British Columbia as the playground of Canada the Canadian railway systems would do well to compare the climatic virtue of Vancouver Island—and more especially the City of Victoria—with that of California, whose advertisements describe her meteorological conditions as incomparable anywhere on the North American continent. Fortunately, however, Canadians and Americans, for that matter, are beginning to realize that there is no necessity to incur the loss of exchange and the greater expense of railway travel which is necessary to satisfy the Californian taste. Every year Victoria is becoming better known; her equable climate is now adjudged as far more beneficial and enjoyable than that of many of the southern resorts. In proof of this one needs but to study the weather report for the month of August. Therein is shown a daily average of bright sunshine of more than eleven hours and a mean average temperature of sixty-one degrees. Where on the American continent does the weatherman more lavishly bestow his favor?

MARKING TIME.

After the miners' leaders had withdrawn from the meeting of the triple alliance in London last night the delegates representing the transport workers and railwaymen passed a resolution declaring the issue upon which the Miners' Federation has voted in favor of a strike to be a just and reasonable one. In other words the three partners to the labor combine now agree in principle, although endorsement of the demands made by the miners does not necessarily imply active participation of direct action on the part of the triple alliance as a whole.

Surprise is expressed in connection with this latest development as it was considered likely that the transport workers and railwaymen would discourage the tie-up proposed by the coal getters. It is doubtful, however, whether a general strike call to the three federated unions would result as successfully as might be supposed in view of last night's decision. It is highly probable, on the contrary, that support of the demands presented to the conference by the miners' delegates arose from the reasonable supposition that the possibility of a concerted movement by the triple alliance would arouse a sufficient volume of public opinion—antagonistic as it is to the Smullic threat—to influence the Government in favor of a resumption of negotiations for a settlement by compromise.

Nor must it be forgotten that the two-thirds majority required to give effect to a general walk-out was obtained only by a narrow margin. This very definite factor, coupled with the announcement that nearly four hundred thousand miners did not vote at all, may serve to halt the extremists and encourage the larger bulk of unorganized labor—and particularly the recently formed "white collar" section of toilers—to range itself behind the State and demand that the triple alliance keep open the path of mediation until a solution has been found.

HURTING DOMESTIC LOANS.

While it might be possible to float another national domestic loan among the next generation of the Canadian people, an attempt to do it before then would be regarded as an affront to the public intelligence and would be received with derision. The reduction of the prices of the various issues of Victory Bonds at the instigation of the Canadian Finance Department is a repudiation of the emphatic pledges and assurances which formed some of the chief bases of the appeal to the people to

purchase those securities. The public was told that the Victory Bond was an unapproachable business investment whose value was as fixed as the rock of Gibraltar, and that whatever might happen to other securities, it would retain its proud eminence because "the credit of the whole nation was behind it."

Now, we find the Department every once in a while giving the price of Victory Bonds a downward kick "to conform to market conditions," incidentally doing it in such a way as to suggest manipulation. We do not say it is not necessary, in deference to inevitable economic laws, to vary the prices of these bonds just as the prices of other securities are varied, but this should have been foreseen when the loans were issued, and the public should have been advised of the possibilities, instead of being filled with the assurances and promises we already have referred to.

If this had been done the Government would not have raised so much money, nor would it have been able to squander so much, but it would have been possible to float domestic loans for limited amounts indefinitely. In the long run the Dominion would have been very much the gainer, both in its credit in the financial world and, what is much more important, in the tendency that would have developed among the Canadian people to invest their money in their own securities.

Just now the Dominion does not need to float a domestic loan. It has something better in a veritable welter of taxation which this year is expected to raise \$700,000,000. But this is only a temporary condition; the public soon will call a halt to taxation which raises many millions more than are legitimately needed, and we shall revert to the costly, if not dangerous, practice of borrowing abroad, mortgaging ourselves to foreign money interests.

NOTE AND COMMENT

At the recent convention of the Canadian Wholesale Grocers' Association in Toronto the Press was barred. Thus does the poor consumer get it where the chicken gets the axe!

Women pickets are doing their best to extend the unauthorized strike of longshoremen at Boston by inducing them to refuse to work the ships sailing under the British flag. This is the new kind of absent treatment to which the British Government is being subjected by citizens of the United States who have contracted the Irish self-determination complaint.

Dispatches from Constantinople report the massacre of six hundred Armenians by Kurds. Information of this kind was common six years ago; but it ought to be quite out of place to-day with all the elaborate machinery specially designed to set the world right.

Captains of Atlantic steamers report the Gulf Stream missing, and scientists are busying themselves in speculating as to the possible effect upon the climate of Great Britain. If only the missing liquid had engulfed all the profiteers in this and other lands the remainder of the population would have taken a chance on an altered climate.

British public school girls no longer subscribe to the tenets of Dickensian "modesty." A lively fight is now going on between them and their mistresses, the latter of whom object to petticoat "sneer." So acute has the situation become that the girls have declared their willingness to be expelled rather than submit to prohibition of feminine football. Verily is the memory of the Victorian period obliterated.

George Tchitcherine, Bolshevik Foreign Minister, says there will be a new offensive against Poland unless the Poles conform their acts to their promises. Talk of a new Russian offensive against Poland is childish, since it would meet with just as great a disaster as the offensive which has just collapsed, provided the Poles have a reasonable amount of artillery, tanks and armored cars. The Polish forces which smashed the Bolsheviks were not more than a third as numerous as the troops which invaded their country. Po-

land need have no fear of military action by the Bolsheviks unless by her own ambition she enables them to nationalize the war against her. In that case she would have to meet the fighting weight of nearly 200,000,000 people.

The equanimity with which the proprietors of the Manchester and Liverpool newspapers contemplate the closing down of their establishments owing to the fact that for the most part they are losing nothing from the development. Paying three to four hundred dollars a ton for paper, they are not making both ends meet, so they can afford to cease operations much longer than the strikers, whose walk-out is not supported by their union headquarters.

A short-time ago The Ottawa Citizen, which thinks a Government drydock at Victoria is a sinful waste of money, printed an impressive description of the new building on Parliament Hill. We agree with The Citizen that the structure is a beautiful one, but it is not worth the ten or twelve millions it will cost. Our own buildings, which in many respects are the finest in Canada, not even excepting any of the buildings at Ottawa, cost less than a quarter of the amount required for this single structure in the national capital. We would imagine so staunch an advocate of economy as The Citizen would have something to say about that Ottawa building. Is it silent because much of the waste is flowing around Ottawa?

OTHER PAPERS' VIEWS

SETTLING IT.
(The Ottawa Citizen.)
An Irishman, who was to undergo trial for theft, was being comforted by his priest. "Keep up your heart, Dennis, my boy. Take my word for it, you'll get justice." "Tough, yer reverence," replied Dennis in an undertone, "and that's just what I am afraid of."

AN ACCOMMODATING MAN.
(The Boston Transcript.)
Young Freeleigh drew his cane up at the rural garage, and with a wink at his young lady passengers, he said to the proprietor, "Got any gasoline?" "I calc-late I have," said the countryman.
"How do you sell it, by the glass or the spoonful?" asked Freeleigh.
"Wal, that all depends, mister," was the calm reply. "Mostly I sell it by the day, but when some gold-darned jackass from the city comes along and wants it by the glass, I generally accommodate him. How many glasses do you want?"

TRIUMPH OF SURGERY.
(The London Times.)
How soldiers who had portions of their nerves blown away had them rejoined by the grafting in of lengths of animal's nerves, was told by Sir Charles Ballance in a lecture on "The Healing Process in Nerves," given at the annual conference of the Incorporated Society of Trained Masseuses at the Royal Society of Arts recently. "You get an animal," he said, "whose nerve is the same size as the one you want to heal. An officer was wounded in the arm, and two inches of his ulnar nerve were blown away. I went to my butcher and told him I wanted two inches of sheep's sciatic nerve. He killed a sheep, and while the nerve was still alive I cut it out and grafted it in immediately. That officer made a complete recovery."

DOUGH BY THE BUSHEL.
(The Pittsburg Chronicle-Telegraph.)
The depreciation of our currency to-day is nothing to be thought of in comparison with the slump in Confederate paper money after the Civil War. General Muhlenberg relates that shortly after Lee's surrender he became possessed of a very ordinary looking horse. "He'll do for my farm, John," said one. "I'll give you \$20,000 for him."
"No," said the other.
"Give you \$50,000."
"Give you \$100,000."
"Not much," replied the owner. "I just paid \$120,000 to have him shod."

SALESMANSHIP, PLUS.
(The Three Partners.)
"It's a pleasant day, isn't it?"
"Yes—it's always pleasant where you are."

This brief conversation took place between a gentleman and a corner news-vendor, the latter of whom was alert salesman on the boys' part, for the customer bought one more newspaper than he was in the habit of doing. In addition, the boy's remark pleased pleasantly in the man's mind all through the day, and the conversation was repeated to several of his friends.
There's heaven for the whole day in a smile and a few pleasant words.

ANNIVERSARIES TO-DAY

1557—Jacques Cartier died at St. Malo, France.
1791—Lydia Huntley Sigourney, famous poetess, born at Norwich, Conn. Died at Hartford, Conn., June 10, 1865.
1820—Alexander of Russia granted the Polish people the Sea of Azov to converted Jews.
1838—Emperor of Austria crowned King of Lombardy at Milan.
1870—Cot Plague, a French general under both Napoleons, died. Born in Paris, April 21, 1785.
1889—Mary Anderson made her English debut at the Lyceum Theatre in London.
1917—Sarah Bernhardt returned to the stage in New York after an illness of several months.

MARKET FOR CANADA'S APPLES IN ENGLAND

Fruit Commissioner Reports On Investigations; Crop Failure in Some Places

Ottawa, Sept. 1.—(Canadian Press.) In a report just made to the Department of Trade and Commerce, J. F. Smith, Canadian fruit trade commissioner states that early forecasts of the English apple crop situation, which were not encouraging, are fully substantiated by present indications. The crop in Kent county, the principal apple producing county in England, will not be more than 10 per cent. of an average crop, while in Cambridgeshire and Middlesex, it is practically a failure.

The British Minister of Food has suspended the apple price control until November 15, with the obvious intention of encouraging the home industry by permitting the highest prices the market will pay. Canadian apples will thus have the advantage of a free market in Britain.

Bumper B. C. Crop.

Touching on the general outlook, Mr. Smith states that the American apple crop is estimated at 65 to 75 per cent. of last season's—a shortage of 4,000 cars. The British Columbia crop will be 60 to 75 per cent., the Nova Scotia crop 55 per cent., the Ontario crop will show an increase, and the American barrel apple crop will be substantially increased. American apples, however, will be handicapped abroad by an adverse state of exchange, and with the English crop practically a failure, demand should be strong and prices satisfactory.

BAR ASSOCIATION OF CANADA MEETS

Greatness of British Institutions Dwelt Upon by Prominent Speakers
Ottawa, Sept. 1.—Four speeches which dwell on the greatness of British institutions and the fraternal relations between Britain, the United States and Canada were heard to-day at the opening meeting of the Canadian Bar Association.

The speakers this morning were the Duke of Devonshire, Governor-General of Canada; Hon. W. F. Turgeon, Attorney-General of Saskatchewan; Sir James Aikins, President of the Canadian Bar Association and Lieutenant-Governor of Manitoba; and William Howard Taft, ex-President of the United States, who spoke at the luncheon to-day.

The remarks of the Duke of Devonshire, that as British institutions had carried the Empire and the world safely through the great war, they would be sufficient to carry us also through the trying days that are now present, and that lay ahead of us, were heartily cheered.

RAILWAY BOARD WILL MEET HERE

Mr. Preston does go East it is planned that after he has reached an agreement with the Canadian Pacific Railway Company on certain technical matters in connection with the bridge plans, he will go with C. P. R. representatives before the Railway Commission to secure its approval of the plans. The procedure, it is thought, would avoid several weeks' delay. If Mr. Preston remains in Victoria after a settlement with the C. P. R. has been achieved the plans likely will be laid before the Commission here.

SHIPYARD WORKERS MIX WITH TROOPS IN BELFAST DISTRICT

(Continued from page 1.)

Volunteer Patrolmen. Efforts are being made to have Ulster Volunteers accepted as patrolmen by the police authorities, but the latter have been reluctant to assent to the scheme. The volunteers' claims have been conceded at Lisburn near here, and the civilian patrol has been doing valuable work.

Sinn Féin police did duty in the Falls district on Monday night, but of course, without the knowledge of the authorities. They closed public houses in that part of the city during the time they were on duty. Their work was emulated, though not in the same spirit, by Unionist youths in various parts of the city yesterday. These men continued their campaign of incendiarism against National licensed houses.

CHAPTER OF ACCIDENTS OCCUR AT MONTREAL

Montreal, Sept. 1.—Accidents in and around the city last night included the following:
Mrs. Rene Roble, sixty-six, struck by an automobile at Notre Dame and Latourneau Streets, Mississauga, suffered a fractured arm and internal injuries.
Jumping down fifteen feet in the elevator shaft of the Canadian Swift Company's refrigerating plant on Craig Street East, R. Denis, thirty-five, suffered severe internal injuries. His condition is critical.
Struck by an automobile at St. James Street and Victoria Square, Edward J. Colfer, fifty-five, suffered severe head injuries and a bruised back.
Struck by an automobile on St. Lawrence Street, near Sherbrooke Street, George Orr, thirty-eight, suffered a fractured skull, and was taken to the General Hospital, where his condition is serious.

Luggage for Those Who Are About To Travel

At this store a very complete array of traveling goods is presented. This display has been assembled from the stocks of one of Canada's foremost manufacturers, and each piece combines strength and dependability at a very moderate price.

MAIL AEROPLANE CATCHES FIRE; TWO BURNED TO DEATH

Morristown, N. J., Sept. 1.—Two men were burned to death in a Government all-metal mail aeroplane which went down here this morning. The plane was flying at a low altitude and the pilots seemed to be experiencing trouble with the engine. Farmers saw the plane take a sudden dive and burst into flames. It hit the ground with a thud and a tremendous explosion occurred, throwing mail bags hundreds of feet in every direction.

NEW DIRECTOR OF PAN-AMERICAN UNION

Washington, Sept. 1.—Dr. L. S. Rowe to-day assumed the directorship of the Pan-American Union, succeeding John Barrett, who retired after fifteen years' service as directing head of the Union. The transfer of directorship took place in the presence of members of the Latin American diplomatic corps, Secretary of State Colby and other high officials.

TWO FIREMEN KILLED IN PORTLAND BLAZE

Portland, Ore., Sept. 1.—Two firemen were slightly injured here early this morning in a fire that did \$200,000 damage to a large downtown furniture warehouse and for a time threatened to spread to a nearby hotel. A short circuit between a trolley wire and one of the guy wires was said to have caused a shower of sparks which started the blaze.

CITIES OF LIVERPOOL AND MANCHESTER ARE STILL WITHOUT PAPERS

London, Sept. 1.—(Canadian Associated Press.)—Manchester and Liverpool are still without newspapers owing to the printers' strike, with the exception of the northern edition of The Daily Mail. The strike is causing great inconvenience to the commercial community and also to the sport-loving public.

TENNESSEE LAWMAKERS ON SUFFRAGE ISSUE

Nashville, Tenn., Sept. 1.—Conflicting views were held to-day by leaders in the Tennessee Legislature as to the probable effect of the House's action yesterday in expunging from its journal all record of ratification of the Federal suffrage amendment and voting not to concur with the Senate in ratifying the amendment. Anti-suffragists refused to say whether an attempt would be made to have the Senate also reconsider its ratification vote.

REPORT ON IMMIGRATION QUESTION PREMATURE

Washington, Sept. 1.—Press reports from Tokio via Honolulu that an agreement had been reached here on the Japanese immigration question apparently are premature. Officials at the State Department to-day said discussions between Secretary Colby and Ambassador Shidehara of Japan had not passed the stage of informal conversations for the purpose of reaching agreement on principle although Mr. Colby last week indicated that he regarded the progress made as favorable.

HAWAIIAN VIEWS ON JAPANESE IMMIGRATION

San Francisco, Sept. 1.—Complete cessation of immigration into the United States from Japan, but opposition to any legislative or constitutional action to disenfranchise the Asiatics now in the Hawaiian Islands will be advocated by the Hawaiian delegation to the American Legion convention in Cleveland. Major Leonard Withington, of the Hawaiian National Guard and chairman of the delegation announced on his arrival from Honolulu.

FAMOUS BULLDOG DEAD.

Montreal, Sept. 1.—Saut Port Jack, a famous English prize winner bulldog, died this morning in an express car on his way to the Sherbrooke Exhibition. The dog was the property of Charles F. Fawcett, of Calgary, Alta., and was well known to dog fanciers, having been a prize winner at many of the big canine exhibitions throughout the country.

Air Currents Near Mount Baker Cause of Plane Mishap

Bellingham, Wash., Sept. 1.—Unable to control the aeroplane he was piloting because of the air currents encountered above the foothills of Mount Baker, David Logg, a Seattle aviator, was forced to attempt a landing in the bed of Warm Creek. A 215-cubick yesterday afternoon. The plane caught on a tree as it neared the ground, tilted nose downward, and in a few moments was a mass of flames. It was totally destroyed. Logg and his passenger, Clyde Banks, a local photographer, escaped uninjured. The attempted trip to Mount Baker was planned in the hope of getting photographs of the snow-capped peak from the air.

MILK TAKES LEAP

Toronto, Sept. 1.—Milk prices to-day took a jump of two cents a quart. "Winter prices," going into effect this morning, instead of October 1, as heretofore. The new rate means that instead of 14 pint tickets for one dollar, as prevailed yesterday, the housewife will get only 12.

ESCAPED FROM GUARDS.

Juarez, Mexico, Sept. 1.—Paul R. Altendorf, who claimed he was a secret agent of the United States in Mexico during the world war and recently arrested in Mexico City and ordered deported as a "pernicious foreigner" escaped from two Mexican army officers who were guarding him during the night, it became known to-day.

KILLED BY MOTOR.

Tacoma, Sept. 1.—After being knocked down and passed over by a motor truck, Defni Kunheal, five-year-old son of Mr. and Mrs. K. Kunheal, of Green Lake, Wash., died in a local hospital late yesterday. The accident occurred in Sumner, where the boy's parents were visiting. A truck wheel, it is said, passed over the victim's head.

INLAND REVENUE RETURNS.

Montreal, Sept. 1.—A heavy increase in revenue at the inland revenue office for Montreal is shown for August. Total amount collected was \$4,034,979.57 as against \$3,751,497 for July. New taxes are included in this to the amount of \$1,576,423.49. At the customs house total customs revenue for August amounted to \$4,794,099.15 as against \$4,450,212 for July.

MEN CAN LIVE TO AGE OF 150

Attention To Hygienic Laws
Alone Needed Says Jean
Finot

Paris, Sept. 1.—Careful attention to the ordinary laws of moral and physical hygiene will enable a man to live to the ripe old age of 150 years, according to Jean Finot, scientist, who has made a study of longevity for the past fifty years. It is not necessary to have monkey glands grafted on and be exposed to tuberculosis, from which 75 per cent. of the monkeys suffer.

M. Finot, who is nearly seventy, travels constantly and is as sprightly as a man of twenty-one, cites instances of many Europeans who have lived more than a century in temperatures similar to ours.

"It is very easy to live to be one hundred and fifty," he said. "First, when you reach 70 don't begin to fear death. No one must say, 'I am nearing the end.' On the contrary, keep thinking that only half your life has been passed. Endeavor to live in an atmosphere of constant auto-suggestion, instead of suffering from a false idea of death."

Monkey Glands
But this is not enough. Keep your interior and exterior organisms healthy. Keep the skin free from imperfections. Learn to eat and drink properly. Think less and eat less. Masturbate thoroughly. Above all, do not neglect to pass ten minutes in gymnastics every morning before breakfast.

"That is all. Take plenty of pleasure in life, but do not abuse the pleasures."

Dismissing Dr. Voronoff's suggestion for the transmission of monkey's vitality to me, Mr. Finot intimated that the greatest danger therein lay in men falling heir to maladies peculiar to monkeys.

"Besides, what would be the effort on our mentality?" he asked. "It is not possible that the rejuvenated humans would adopt the vices and the habits of the simian benefactors."

However, he was unwilling to prophesy that Dr. Voronoff's theory put into practice, would result in men acquiring the nut cracking, tree climbing propensity of monkeys.

M. Finot called attention to the fact that religious history is filled with incidents where such routine as he advocates prolonged life, for the saints achieved more than double the usual span.

RAIN WAS TIMELY.

Prince Albert, Sept. 1.—Timely rains have practically quenched the fires along the line of the Canadian National Railway east of Prince Albert, according to news from special correspondents of the Prince Albert Herald in the menaced area. A dispatch from Prairie River this morning says there has been no serious loss to soldier settlers and the fires are under control after good showers. Near Mistatim, 500 tons of hay belonging to a settler were burned.

The indications are that the fire danger is over for the present.

AFTER EFFECTS OF FLU NOW GONE

Victoria Woman and Children
Recover Strength By
Taking Tanlac

So many people have testified to having used Tanlac with such splendid results following gripe, influenza, operations, typhoid and pneumonia, and other troubles that it has become universally recognized as the most remarkable reconstructive tonic of the present age.

Another very striking testimonial in connection with this fact was given by Mrs. Annie Unwin, a highly esteemed resident of 233 Mills Street, Victoria, B. C.

Mrs. Unwin declares that three bottles of Tanlac have relieved her entirely of all the after effects of a serious case of influenza, and that her weight has increased fifteen pounds, besides. But let her tell her own story. Here is her statement:

"Following a serious case of influenza last February, which left me in a very badly rundown condition, it seemed that I would never get back my strength. Up to the time I got Tanlac I was in the worst sort of fix, could eat nothing scarcely, had no appetite, and was ailing in some way or other all the time.

"Even the sight or smell of food would nauseate me, and after meals I was always troubled with indigestion and gas on my stomach. I suffered terribly with headaches, hardly had strength to look after my family, and was getting weaker all the time. What little sleep I got seemed to do me no good, and as I could get nothing to help me I felt got of heart, and lost interest in nearly everything.

"I had heard so much about Tanlac being good for people in my condition that I bought a bottle, and I am not exaggerating when I say the very first dose seemed to soothe my stomach and make me feel better, and after finishing my first bottle I was feeling like a different person.

"Well, I finished my second bottle feeling as well as I ever did in my life. I have taken three bottles now, ate just anything, sleep like a child, and feel just fine all the time. All the disagreeable after effects of the 'flu' have left me entirely, and I have also gained fifteen pounds in weight. I also gave Tanlac to my children, as they had influenza, too, and it has built them up just like it did me. I have often thought of writing to the Tanlac Company about the wonderful benefits I have received from their grand medicine, and I am more than glad for my testimonial to be published for the sake of others who need Tanlac like I did."

Tanlac is sold in Victoria by Dr. E. Campbell, corner Fort and Douglas, and Lang's Drug Store, Esquimalt Road.

DAVID SPENCER, LIMITED

EAT Som-Mor Biscuit TODAY

Mr. and Mrs. S. R. Fay, of Winnipeg, and Mrs. Lemon and Mrs. Hamilton, of Saskatoon, Saskatchewan, are guests at the Strathcona Hotel.

Mr. and Mrs. Landen Rose, and Gardner G. Rose, of Chicago, are registered at the Empress Hotel.

Mrs. G. O. Fraser and children are spending a week at Strathcona Lodge Shawanigan Lake.

Mr. and Mrs. W. Taylor, of Lethbridge, Alberta, are registered at the Empress Hotel.

Mrs. H. P. Brown, of Aberdeen, Washington, is a guest at the Empress Hotel.

Senator Plante, and son, of Na-

Social Personal

Guests staying at Strathcona Lodge, Shawanigan Lake last week were: Mr. and Mrs. A. R. Mann, the Misses Mann, Mrs. and Miss Malcom, Mrs. F. J. Musgrave, Miss Musgrave, W. McLennan, Bert Rose, J. E. Rose, J. G. Spiller, Mrs. J. Rose, Miss Muriel Rose, Dr. and Mrs. Grant, Master Jack Grant, Miss E. John, A. S. Kilham, Mrs. G. G. Fraser, Miss Fraser, Master J. Fraser, G. W. Newton, Mr. and Mrs. Amelius, Bert White, G. Hayden, H. Banham, H. Gann, Mr. and Mrs. Knease, Major and Mrs. Dupont, Victoria. C. Fred Burrback, Danville, Quebec, Mrs. Lynette Lavias, Miss Carol Lavias, Tacoma, Washington, Miss V. Lacey, Miss M. Crossen, New York, Mr. and Mrs. A. S. Bateman, Winnipeg, Mr. and Mrs. H. K. L. Strover, Mr. and Mrs. Alex. Dickson, Mr. G. W. Fischer, R. Watson, Mr. and Mrs. Edgar Schwabacker, Morton Schwabacker, Mervin Schwabacker, Taylor, Master Taylor, Mr. L. L. Love, Dr. and Mrs. Remington, Seattle, Mrs. A. Schwabacker, San Francisco, Dr. and Mrs. J. Montgomery, Mr. and Mrs. Lundhal, Ladysmith, V.I. Mr. A. F. Beasley, Cobble Hill, V.I.

Most successful was the military five hundred party held last night in the Knights of Columbus Hall by Victoria Review, No. 1, W. B. A. Over twenty tables were in use, the following being the winners at the first table: Mrs. Winter and Mrs. Cunningham, Mr. and Mrs. G. G. Fraser, Mr. and Mrs. L. L. Love, Mr. and Mrs. R. Watson, Mr. and Mrs. Edgar Schwabacker, Morton Schwabacker, Mervin Schwabacker, Taylor, Master Taylor, Mr. L. L. Love, Dr. and Mrs. Remington, Seattle, Mrs. A. Schwabacker, San Francisco, Dr. and Mrs. J. Montgomery, Mr. and Mrs. Lundhal, Ladysmith, V.I. Mr. A. F. Beasley, Cobble Hill, V.I.

On Tuesday afternoon at "Oakleigh," Cranmore Road, Oak Bay, the residence of Mr. and Mrs. J. J. Hughes, their second son, Thomas Lewis, was united in marriage to Jeannie, second daughter of Mr. and Mrs. Harry Harvey, of New Southgate, London, England, Rev. W. D. Spence officiating. The bride was attended by Miss Winifred Hughes, Freda Knowles, niece of the bridegroom. The bridegroom was supported by his brother, Arthur Hughes, and reception was afterwards held, at which a few intimate friends were present. Mr. and Mrs. T. L. Hughes left at 4 o'clock for Sooke, where the honeymoon will be spent. They will make their home at Fowl Bay.

Mr. and Mrs. George Bushby, "Clairden," St. Charles Street, have as their guests for a few days Sir Charles and Lady Piers, of Vancouver, and their son Robin, who recently arrived from England. They have just over from Vancouver to attend the garden party given by Brigadier-General and Mrs. Ross at Work Point this afternoon.

Dr. Avison, President of the Medical College of Seoul, Korea, will visit Victoria in the near future. It is twenty-seven years since Dr. Avison went to Korea, where he was successful in graduating seven natives in the medical profession, despite the fact that he had to translate all medical terms into the Korean language.

Mrs. Walter Chappell left on the Seattle boat yesterday for her home in Snohomish, Washington, after spending a very pleasant fortnight's visit in the city, visiting her cousins, William and Ernest T. Rance, of 3553 Prior Street.

Mr. and Mrs. H. G. Scott and Miss I. Scott, and Miss L. Scott, of Port Washington, and H. A. H. Churchill, of Ganges, arrived in the city yesterday on the Island Princess, and are staying at the Strathcona Hotel.

Mrs. Irene Nasmith, of North Hampshire Road, accompanied by her little daughter, Rosemary, expects to leave within the next few days for Ohio, U. S. A., where she will take up her residence for about nine months.

Rev. W. H. Bliss, Mrs. Bliss and Master Bliss, D. A. McDonald, and Thomas W. Kidd, of Seattle, and Mr. and Mrs. G. T. Smith, Mr. and Mrs. Robert Armstrong, of Tacoma, are registered at the Strathcona Hotel.

The many friends of Mrs. F. W. Bland will be pleased to learn that she is making satisfactory progress at the Royal Jubilee Hospital, and will be well enough to receive visitors in a few days.

Miss Katherine Wilkerson has left for Toronto, where she will resume her studies. She was accompanied on her journey East by Signor and Madame Morando.

Mr. and Mrs. R. B. Clarkson have returned from Sutherland House, Cowichan Bay, and taken up their residence at 1200 Hampshire Road for the winter.

A most enjoyable dance was held at Strathcona Lodge, Shawanigan Lake on Saturday last. Prof. Holman's Orchestra furnishing the music.

Mr. and Mrs. S. R. Fay, of Winnipeg, and Mrs. Lemon and Mrs. Hamilton, of Saskatoon, Saskatchewan, are guests at the Strathcona Hotel.

Mr. and Mrs. Landen Rose, and Gardner G. Rose, of Chicago, are registered at the Empress Hotel.

Mrs. G. O. Fraser and children are spending a week at Strathcona Lodge Shawanigan Lake.

Mr. and Mrs. W. Taylor, of Lethbridge, Alberta, are registered at the Empress Hotel.

Mrs. H. P. Brown, of Aberdeen, Washington, is a guest at the Empress Hotel.

Senator Plante, and son, of Na-

naimo, were in the city yesterday.

Mr. and Mrs. L. W. Thirkell entertained Sir Charles and Lady Starmer of the Imperial Press Conference, at Sylvia Court, Vancouver, on Sunday evening, after their return from Victoria. Among other guests were: Duke Wilson, J. Ellis Griffith, Mr. and Mrs. V. R. Thirkell, Mr. and Mrs. A. R. Riddell, Mr. and Mrs. L. V. Thirkell, Mr. R. W. Thirkell, Miss Ida Thirkell, Miss Ellen Thirkell, presented Lady Starmer with a bouquet of roses and carnations.

Horlick's the Original Malted Milk. Avoid Imitations and Substitutes

The next time you happen to be in a hotel room—or even in somebody's guest-room—wonder how you are going to hang up your coat or your frock or blouse without ruining the lines, because nobody has thought of dress-hangers—remember about the newspaper hangers.

All you have to do is to make a long compact roll of newspaper folded in half, tie a bit of string, or failing any string, a bit of ribbon, around the centre of the roll and hang the roll up by a loop of string or ribbon. You have a very practical garment hanger, about fifteen inches long, which will support your frock, coat or blouse

of Port Alice, are registered at the Dominion Hotel.

In the presence of the immediate relatives of the young couple, the marriage took place Saturday evening in the Westminster Church Presbytery of Desha McAllister, only son of Mr. and Mrs. David McAllister, of Prince Albert Street, South Vancouver, and Miss Harleida Hayden, second daughter of Mr. and Mrs. W. H. Hayden, Somerville Street, South Vancouver. The ceremony was performed by Rev. Dr. Craig of Westminster Church. The bride entered the room on the arm of her father, and looked very charming in a travelling suit of blue serge, with white feather hat and dainty drop veil. She carried a shower bouquet of white roses and carnations, and was attended by Miss Margaret Cruise of Victoria, cousin of the groom, who served at the home of the bride's parents, where the bride and groom were the recipients of many beautiful and costly presents. The happy couple left on the midnight boat for the South, where the honeymoon will be spent. Upon their return they will reside in Victoria.

Mrs. A. Bacon, of Pitt Street, is spending a vacation in Vancouver, and was among the guests at a tea given at the Japanese Country Club, on Monday by Mrs. Hamilton Lane.

Mrs. Margaret Jenkins left this afternoon for Seattle, where she will be the guest of her son and daughter-in-law, Mr. and Mrs. Fox, St. Helen's Place, for a few days.

The Misses Marjorie and Cora Fuckle, of this city, have been holidaying in Vancouver, and last week were among the guests at the Canyon View Hotel, Capilano.

F. D. Luckham and family, of Calgary, are guests at the Dominion Hotel.

James J. Godfrey, of New York, is registered at the Empress Hotel.

Mrs. H. Stoddart, of Parksville, is staying at the Empress Hotel.

A. A. Crane, of Sonoma, is registered at the Dominion Hotel.

WOMEN'S COUNCILS OF WORLD WILL MEET IN NORWAY

Comprehensive Agenda For Quinquennial Assembly of International Body

Matters of moment to the public in general and women and children in particular find a place on the agenda of the quinquennial meeting of the International Council of Women, which will meet in Christiania, Norway, on September 8 to 15. This meeting of women from all quarters of the world will have a special significance in so much that it will mark the first reunion of these Councils since pre-war days and its deliberations will be a reflection of the five years of the world struggle for supremacy among the nations.

Representatives of Great Britain, the United States, France, Belgium, Denmark, South Africa, Italy, Switzerland, Greece, Australia, Norway, will present resolutions dealing with questions of the world's peace, and a glance at the agenda reveals the fact that women of the world over are facing the same problems as are to be found in Canada.

League of Nations

Prominent among the subjects to be discussed will be the League of Nations. The National Council of South Africa submits the following resolution: "That the League of Nations be urged to take a vigorous effort to include one woman from among the three delegates allowed each country in the General Assembly of the League of Nations." A similar request is made by the Women's Councils of Denmark, while the women of Norway submit an original note in the following resolution: "That the International Council of Women urge the League of Nations to give full consideration to national peculiarities, manners and customs from being interfered with by internationalism."

Great Britain and the United States join in expressing their appreciation of the efforts of Lady Aberdeen and the Allied groups of women associated with her in Paris in the Spring of 1919 in guarding the interests of women and children in all parts of the world, coupled with satisfaction that the official Peace Conference accorded her efforts such a warm support.

For Fuller Education

The formation of an international bureau of education in connection with the League of Nations is urged by the women of Norway, in the belief that the basis for a permanent peace depends on a truer and fuller education of the people, and that the Councils of Women, and other international organizations should assist in building up a system of education founded on the right ideals. International exchange of public school teachers is another educational step advocated by Great Britain.

Child Welfare

As would be expected in a gathering of the mothers of the world, child welfare occupies an important position on the agenda. The National Council of the United States in its report to the League of Nations, in the year with a proposal that "as all questions relating to children are educational questions and all children in juvenile courts are school children, we recommend that supervision of all children outside the home be placed under the jurisdiction of the educational system; that juvenile probation and all reformatories be placed under the supervision of the charge of the educational system."

Italian women sponsor a resolution urging that the education of children of all nations be permeated with the principles of the Golden Rule; that legislation be introduced for the protection of children, the right of minors and the care of mothers, and to guard against conditions of child labor. In this matter Italy is supported by the Councils of Switzerland and Denmark.

Wife's Nationality

A reflection of the war, and the interest of the foreign wives of enemy aliens is contained in a resolution emanating from the United States, which asks that any woman married to an alien be allowed to retain her native citizenship or become naturalized should they so desire, irrespective of the nationality of the husband, and that all women who have lost their native citizenship by marriage be allowed to resume the same by formal application before a Court competent to naturalize. Similar requests are made by the National Councils of Denmark and Norway.

The guarding of the public health and the adoption of an equal moral standard for men and women, a uniform international standard of medical examination for emigrants, and a strong support of the international movement of motherhood are among other pertinent matters dealt with in the form of resolutions from the various countries.

NEWSPAPER HANGERS.

The next time you happen to be in a hotel room—or even in somebody's guest-room—wonder how you are going to hang up your coat or your frock or blouse without ruining the lines, because nobody has thought of dress-hangers—remember about the newspaper hangers.

All you have to do is to make a long compact roll of newspaper folded in half, tie a bit of string, or failing any string, a bit of ribbon, around the centre of the roll and hang the roll up by a loop of string or ribbon. You have a very practical garment hanger, about fifteen inches long, which will support your frock, coat or blouse

SPORT SUITS ATTIRE

AT TO-DAY'S WEDDING

Nuptials of Miss Anna Olive Mitchell and Wm. Spencer At St. Mary's

Sports suits were the novel attire chosen by the bride and her retinue at a charmingly-appointed wedding which took place this afternoon at St. Mary's Church, Oak Bay, at 3 o'clock, when the principals were Miss Anna Olive Mitchell, only child of Mrs. George A. Mitchell, of 1284 Hampshire Road, and William Spencer, of Yarrow's Ltd., Rev. G. H. Andrews officiated in the presence of a big congregation of friends of the contracting parties. Pink gladioli, mauve asters, gypsophylla and ferns transformed the church into a delightful floral bower for the ceremony.

The bride, who was given in marriage by Mr. John Turner, of Uplands, looked radiant in her becoming sports suit of white Jersey cloth with which she wore a hat of white satin trimmed with angora, and white fox furs. She carried a dainty bag of white moire with ivory handle and her graceful arm bouquet was composed of Opheelia roses and maidenhair fern. Miss Mabel Andrews, the maid of honor, was charming in a suit of pale pink Jersey cloth with hat en suite trimmed with angora, and hand bag of pale pink moirette. The two bridesmaids, Miss Gerlie Jay and Miss Jenny Turner, wore white Jersey suits, the former with a hat of pastel blue trimmed with angora and carrying a blue hand bag en suite, the latter in white suit with hat of orchid tones and bag to match. Each of the three attendants wore corsage bouquets of Opheelia roses and violets. Little Rosemary Naysmith, made a winsome flower-girl in her frock of pale blue organdie made with ruffles to resemble the petals of a flower. Her hat was of pale blue tulle and she carried a golden basket filled with Opheelia rosebuds and gypsophylla. The bride's mother, Mrs. Mitchell, was smartly dressed in navy blue, heavily embroidered in black, with becoming chapeau of navy panne velvet trimmed with silver and silver cabochon. During the ceremony Miss Dorothy Dorrell sang with much sweetness.

The groomsmen were Brooke Stevenson, while Major Wendell B. Shaw, Capt. W. Hall, Gordon Campbell and Sidney Powell acted as ushers. The bridegroom's present to the bride was a dainty grey-enamelled wrist watch and a gunmetal mesh bag; to the groomsmen and ushers billfolds of moire, inscribed with the names of the recipients; to the bridesmaids, gold-bar-pins set with pearls and inscribed with the names of the recipients; and the monograms of the bride and groom, to the flower-girl.

Children's play frocks are of satin in plain color with patches of contrasting color. The little costumes cut on very straight lines and beautifully tailored, are rather smart and are certainly practical, for satins are a particularly sturdy material and launders well.

NEW MARCHIONESS WAS FORMER ACTRESS

Lady Queensberry Was in "Theodore and Co." When Wed to Titled Husband

London, Sept. 1.—(By Canadian Press).—By the death recently in Johannesburg, South Africa, of the Marquis of Queensbury, an ex-Gailey girl, who three years ago was the youngest son in Theodore and Co., becomes the new Marchioness. Viscount Drumlanrig, the heir to the title, romantically married Miss Irene Richards, the actress daughter of a London mill-owner. In 1917, she is an exceptionally pretty and talented girl, and studied singing under Jean de Reszke.

Miss Richards got her first big chance in the West End when, after only three rehearsals, she took Miss Iris Hovey's part in "Mr. Manhattan" at the Prince of Wales Theatre. When she took one of the leading parts in "Theodore and Co." she was only eighteen. At the time of the wedding Viscount Drumlanrig was twenty-one and a lieutenant in the Black Watch. He was severely wounded just six weeks afterwards, and subsequently took a post under the Food Ministry in Cornwall.

Marriages from the stage into the peerage were frequent during the war. Last year Miss Evie Carew, of Daly's, who had married Rowland G. Winn in 1915, became Lady St. Oswald on the death of her father-in-law. In 1913 Lord Edward Fitzgerald married Miss May Etheridge, and in the same year Lord Dangan, heir of Earl Cowley, married Miss May Picard, whose stage name was Pearl Aufreux. Miss Connie Gilchrist became Countess of Orkney, Miss Belle Bilton, Countess of Strathmore, and Miss Eva Carrington became Baroness de Clifford. Miss Anna Robinson married the fifth Lord Rossmore.

PLAY FROCKS.

Children's play frocks are of satin in plain color with patches of contrasting color. The little costumes cut on very straight lines and beautifully tailored, are rather smart and are certainly practical, for satins are a particularly sturdy material and launders well.

Wool Scarfs

A Collection of Remarkably Beautiful Colorings and Unusually Smart Styles.

With the addition of recent shipments our display of wool scarfs is one that women will find interesting. Here will be found bright colorings arranged in stripes, check effects, etc., or the more subdued styles featuring two-tone schemes in such shades as wine and fawn, blue and grey, green and blue, etc. Prices are from

\$5.75, \$7.95, \$9.50 to \$14.75

ADVERTISE IN THE TIMES

TENNIS STARS WON GAMES YESTERDAY

Forest Hills, N.Y., Sept. 1.—Pressed to the limit by several of their opponents, the stars of the Davis Cup team survived the ordeals of the second round of the thirty-ninth annual All-Corner championship singles yesterday. Of the famous quartet, R. Norris Williams, H. holder of the title in 1914 and 1915, was the only one to drop a set. The others, W. T. Tilden II, holder of the world's title, Wm. M. Johnston, San Francisco, the playing-through champion, and Chas. S. Garland, all displayed command when compelled to exert themselves. Williams, playing as streaky tennis as he has ever done, plucked triumph from defeat in warring sets. He emerged the conqueror of Howard Voshel, the hard-hitting left hander of Brooklyn, by the score of 3-5, 6-2, 7-5, 6-3. Tilden was again carried to a long duce set at the finish of his match. The Pennsylvanian finally scored against M. Thomas Ackerman, Newark, N.J., 6-3, 6-4, 9-7. Johnston found the drives of A. D. Hammett, former New York University champion, something to be treated with respect. He won, 4-2, 6-4, 6-4, playing chiefly from deep court. Garland was in the best form of the four as he went sailing through Edward B. Benedict, a young Cambridge, Mass., player, 6-2, 6-0, 6-0.

GOLF TOURNAMENT

All entries to the championship tournament at the Colwood Golf Club must be sent in not later than Wednesday, September 1, to J. M. Wood, care of The Begg Motor Co., City. Entries can be made by telephone. All those not received before 6 p. m., will not be able to take part in the tournament.

BALL PLAYER STARTS BIG LIBEL ACTION

Los Angeles, Sept. 1.—W. Baker (Habe) Horton, former first baseman of the Vernon team of the Pacific Coast League, to-day filed suit for \$50,000 damages for alleged libel against William Essick, Vernon manager. The suit is based on statements asserted to have been made by Essick regarding Horton's charges that Vernon players contributed to a fund to aid their team to win the 1919 pennant.

OPPOSE CHANGE IN BREAD LAWS

City Fathers Not Favorable to Requests the Local Bakers Are Making

The civic authorities look with little favor on the recent request of Victoria bakers for alterations of the by-law governing their trade, and the Legislative Committee of the City Council, which was instructed to investigate the matter, is frankly opposed to the suggested changes in the present regulations. It was learned at the City Hall to-day.

Meeting with the City Council a few weeks ago, the bakers asked the Council to incorporate in the Bread By-law a clause allowing for the shrinkage of bread after it left the ovens. They suggested that a shrinkage in weight of half an ounce on every loaf every twelve hours be allowed. Thus a loaf labeled "eighteen ounces" would be in accordance with the civic regulations if it weighed only seventeen and one-half ounces twelve hours after being baked.

The bakers asked also that prosecutions against them on charges of selling under-weight bread should be based not upon the weight of one loaf but upon the weight of five loaves in a retail shop and ten loaves at the bakery. They claimed that it was unfair that a baker should be prosecuted because one solitary loaf happened to be below the required weight.

The bakers told the Council that shrinkage clauses were in force in many other Canadian and American cities.

On investigating the matter, the Legislative Committee found that, in their opinion, the regulations in force in other cities were very unlike the proposals of the local bakers. In Vancouver, for instance, the bread bylaw provides that five loaves of bread together shall weigh more than one ounce short of the total of the weights specified on the bread label within twenty-four hours of baking. In other words, the weight may be one ounce short on five loaves within twenty-four hours of baking.

The objection of the Legislative Committee to the shrinkage clause suggested by the bakers is that the Fair Weights Officer in weighing bread under these conditions would not know when it was baked and hence would not be sure how much it could have shrunk legally. It is felt that his hands thus would be tied. Again the committee objects to the proposals that prosecutions be only on the basis of five short-weight loaves at the retail store and ten short-weight loaves at the bakery. It is feared that small consumers of bread, purchasing only one loaf a day, would have little redress against bakers as they could not produce more than one or two short-weight loaves at a time.

The Legislative Committee likely will make recommendations to the City Council in the near future, but what action the Council will take, of course, remains to be seen.

HOPELESS

Will reading about those Paris silk stockings at \$200 a pair discourage any young man from getting married?—Boston Globe.
Not so long as they see hosiery on display in the five and ten cent store windows—Portland Evening Express.
The newly-married husband will find it pretty hard to work to convince wifey that love is behind his suggestion that she wear the 10-cent kind.—Lewiston Journal.

MAYOR ACTS AS FAST COURIER

Hurries to Albert Head to Consult City Solicitor At His Camp

To get action on some of the city's legal troubles, Mayor Porter this morning hurried to Albert Head by motor with City Engineer F. M. Preston and consulted hastily with City Solicitor H. S. Pringle, who is encamped at the Head. His Workshop slipped away from his office early this morning without telling anyone of his purpose, and in Mr. Preston's fast roadster sped out to Albert Head in record time, for with the Johnson Street bridge negotiations at an acute stage and other important matters pending, the city's Chief Executive is a busy man. The Mayor's absence was a complete mystery to city officials but later it became known that he had sought Mr. Pringle out at his Albert Head camp where he went recently to recover from the strain of many months' hard legal work. The Mayor did not wish to disturb the Solicitor just when he was getting nicely settled in the woods but the matters which he had to discuss with him were of such importance that they could not be left in abeyance.

It is understood at the City Hall which he had to discuss with him were of such importance that they could not be left in abeyance. The Mayor's hasty visit was in connection with the Bailey expropriation case which is at a crucial stage just now. Monday night the City Council received from the Cameron Investment and Securities Company an offer to release the famous Bailey land on Pandora Avenue at a price much lower than that originally asked. The matter was referred to the Solicitor who, however, had departed for his holidays leaving his address only with the Mayor. At it is understood the Cameron interests are striving for an early settlement of the dispute it was thought desirable to consult the Solicitor on the legal aspect of the matter without delay. Hence the Mayor's visit.

The Council probably will take action on the whole question in the immediate future.

OBITUARY RECORD

A profusion of lovely flowers marked the obsequies this morning of the late Mrs. Simeon Duck, a large number of old-time friends of the deceased present paying their last tribute of respect. Rev. G. H. Andrews conducted the service at the B. C. Funeral Chapel at 1:30, the hymn sung being "Rock of Ages." The bearers were Mayor Porter, Capt. G. Caven, George Cruickshank, L. Goodacre and Walter Chambers. Interment was made at Ross Bay Cemetery.

The death occurred at Southport, England, on August 19, of John Lea, late of 901 Burdett Avenue, this city. He was fifty-four years of age. He had been a resident of Victoria for the past nine years, and is survived by his widow, three sons and two daughters, Mrs. C. J. Lucas, Albert and Robert Lea, all of this city, also J. M. Lea, of Portland, Ore., and Mrs. J. B. Murphy, of Seattle.

COATS

New Fall Fashions

In Women's Suits

We take pleasure in presenting the most becoming and authoritative of the new modes for Fall. The unusual tastefulness with which these new suits have been designed and the beautiful elaborations are features which clearly demonstrate our ability to display only the correct fashions.

Model of navy broadcloth is lined with self-colored satin. The back of the coat below the belt is elaborated with fancy stitching. Has large patch pockets of fine beaver; also a large sumptuous beaver collar.

Suit of French blue velour, made along the lines of the fashionable redingote. Has fine lining of pussy willow satin. The lower part of the coat has embroidery trimming and a wide band of Hudson seal. The cuff trimming matches the lower part of the suit, and a Hudson seal collar adds the required finishing touch.

The Newest in Plaid Skirtings

All-wool fine serge in a range of smart colorings for some are in the artistic dull colorations, others of brighter tones, suitable for street or sports wear—**\$8.75 to \$10.50** a yard.

Distinctive Styles in Striped Silk Blouses.

Smart model of white and black habutai silk, has convertible collar and open cuff, **\$8.75.**

Model of fine Jersey silk in shades of maize, rose, blue, heliotrope with white satin stripes, also white crepe de Chine collar and cuffs; is trimmed with fancy loops and pearl buttons, **\$11.50.**

Another model of habutai silk with satin stripes of gold or cadet blue; has convertible collar and button cuffs, **\$8.75.**

Heavy Jersey silk blouses in navy, rose and green stripes; are made with vestee and fancy collar of white Jersey cloth, **\$10.00.**

Blouses of crepe de Chine in mauve, grey, sand and rose stripes; have roll collars of white; fasten with two large pearl buttons and have open turn-back cuffs, **\$12.95.**

Fine Quality Dressing Gown Flannel

A material that is 46 inches wide and is specially suitable for the making of dressing gowns, etc. Comes in such shades as crimson, sky, helio, pink and cardinal, **\$4.50** per yard.

NOTICE! We Are Compelled to Move

ISSUE WRIT AGAINST APPEAL COURT JUDGE

Mrs. Finlayson Seeks Foreclosure of Property of Mr. Justice Martin

William W. Haugh, Allen, of the firm of Jackson & Baker, acting for Mrs. Sarah Susett Finlayson, of 1005 Terrace Avenue, had a writ issued in the Supreme Court of British Columbia to-day against Mr. Justice Martin, 1035 Belmont Avenue, Judge of the Court of Appeal of British Columbia, for the principal, interest, taxes and other costs due on mortgages on the Martin estate embracing the most elevated property in the district bounded by Rockland Avenue, St. Charles and Fort Streets. Mr. Justice Martin is also Judge of the Admiralty Court for B.C.

The land is described as all that known as Block A, subdivision of lot 8, section 14, Victoria district. This embraces the whole of the Martin home and estate which runs along Belmont Avenue and Terrace Avenue. There is also a strip of land 300 feet long of which is laid out on the plan as Paul Lane.

Five separate mortgages are named in the writ against the justice. They bear the dates of June 1, 1912; December 27, 1912; September 2, 1913; March 20, 1914; March 25, 1914.

Mrs. Finlayson is asking the Supreme Court for a judgment for what is due her on these five mortgages running back twenty years, and in default of payment foreclosure of the judge's "mortgaged hereditaments and premises and possession thereof."

HANDS ACROSS SEAS MOVEMENT GROWING

Major Fred J. Ney Informed of Support in High Quarters

Major Fred J. Ney, M.C., honorary organizer of the "Hands Across the Seas" movement, who is staying at the Empress Hotel, has just received word from Lady Haig that Field Marshal Earl Haig, has consented to become a member of the Empire Council of the Hands Across the Seas movement.

Lady Haig in her letter states that her husband retains very pleasant memories of visits of Canadian teachers at Aldershot, during years immediately preceding the war, and now wishes the movement all luck in its future activities.

Sir Thomas Mackenzie's Views. A letter has also been received from Sir Thomas Mackenzie, K.C.M.G., high commissioner in London, for New Zealand, in which he states that it gives him very great pleasure to join the council, adding that he will be very glad to place before the New Zealand government any suggestions which the honorary organizer may have to make with regard to the co-operation of that country.

The presence of Earl Haig and Sir Thomas Mackenzie on the council will be of the utmost assistance to the organization in which they have always taken a keen interest, says Major Ney.

Canada took the lead in this movement and was followed shortly afterwards by Newfoundland, New Zealand, and certain of the Australian States have already intimated their interest, and their official co-operation is now assured.

Major Ney, the founder of the movement, is proceeding apace with his re-organization and re-organization of the movement.

He informed The Times that when completed the movement will embody teachers from all parts of the Empire. The teacher's part as a nation builder has long been recognized, said Major Ney, "but little has been done to secure for the profession the means of widening its outlook, and more aptly fitting its members for their all-important role of citizen making. By linking up the teachers of the empire into an organization such as is proposed it is hoped to provide a source of mutual interest and sympathetic co-operation between those responsible for the training of children in the schools, who will be the citizens of to-morrow."

The teachers relation to the community and the future well being of the state cannot be exaggerated, urged Major Ney. Their influence is limitless and theirs is the privilege of handing down the traditions of the race and those qualities which have made the British nation the great power for good which they hold in the world to-day, he said.

The objects of the movement are officially defined as:

1. To give an insight into the educational systems of the British Empire.

2. To strengthen the Imperial Bonds by bringing the people of the Empire into closer touch with the Motherland, and with one another, through the medium of the School-room.

3. To focus the attention of the

SOME LEADING FIGURES AT EMPIRE CHAMBERS' MEETING

RIGHT HON. LORD DESBOROUGH,
K.C.V.O.

The Right Hon. Lord Desborough, K.C.V.O., Empire builder and sportsman, who will preside at the Ninth Congress of the Chambers of Commerce of the Empire, has played a part in many varied fields. During the war he was responsible for the protection of the water supply of London, and was also made responsible for the release of trained mechanics from the fighting lines for service in munitions. As an athlete he holds many records, and he was president of the British Imperial Air Fleet, and presented three aeroplanes to Canada. He was on the Treasury Committee which started War Savings Certificates, in the Great Police Enquiry in London he distinguished himself by asking 10,000 questions.

ALBERT JOHN HOBSON, J.P.,
L.L.D.

Albert John Hobson is the vice-chairman of the British Imperial Council of Commerce, and one of the original members of the Sheffield Committee on Munitions of War, of which he was made chairman in 1914. He is one of the greatest authorities on metals and alloys, and is an ex-Master Cutler. He was Lord Mayor of Sheffield 1911-1912. Mr. Hobson was a member of the committee to enquire into Financial Risks and Stock Valuations of the Ministry of Reconstruction in England.

CHARLES EDWIN MUSGRAVE.

One of the outstanding figures of the Ninth Congress of Chambers of Commerce of the Empire, which meets in Toronto on September 14, is the Honorary Secretary, Charles Edwin Musgrave, who, as the Secretary of the British Imperial Council of Commerce, is the convener of the Congress. He was Assistant Secretary at the first Congress, which was held in 1886 in London, as an outgrowth of the Colonial and Indian Exhibition, which was held in that year. He has been in the service of the London Chamber of Commerce since 1882, and is a Freeman of the City of London.

A SPEAKING LIKENESS, BUT —

After resisting all entreaties of her friends for a long time an old Scotswoman was at length persuaded to employ the services of a suburban photographic artist. She failed to recognize herself from the first proof submitted for approval. So photo in hand, she went round to the artist's studio to see if there was a mistake. "Is this me?" "Yes, madam," answered the photographer. "It's a speaking likeness." "Aweel," said the old lady, resignedly, "it's a humblin' sight."

THE GAUNTLET THROWN.

Two newsboys were quarrelling when one challenged the other with "Do you know what I think of you?" "No," replied the other pugnaciously, "but if it's what I think you think, I dare you to say it."

Boston Transcript.

Baby touched the hot stove

Mentholatum

They bandaged the hand, with plenty of Mentholatum. Pain soon stopped, and the broken blisters were gently healed in a few days.

The little hand was well. Mentholatum is good for many "little ills"—such as cuts, nervous headache, tired feet, etc.

Mentholatum is sold everywhere in 25c. and 50c. jars.

The Mentholatum Co., Bridgeburg, Ont., Buffalo, N.Y., London, Eng.

"The Little Nurse for Little Ills"

teacher on Imperial interests, and on the duties, responsibilities and privileges of Empire citizenship.

4. To enlist a wider interest in the teaching profession, and the all-important part it plays in the life of both the Nation and the Empire.

HUGE AUDIENCE AT
EDISON TONE TEST

Miss Marion Evelyn Cox and Miss Proudfoot Demonstrate Instrument's Possibilities

Six hundred people gathered in the Empress Hotel ballroom last evening at the complimentary hands of the tone test recital of one of the new Edison Diamond Disc Phonographs given in conjunction with Miss Marion Evelyn Cox, the gifted American contralto, and Miss Doris Proudfoot, a violinist.

There was a time of much ability. There was a time when music lovers would have been reluctant to attend such a recital, but the creative genius of Thomas A. Edison has completely converted them, and mainly for the reason that the electrical wizard has accomplished the feat of reproducing the tones of the human voice and mechanical instrument with a degree of life-like perfection that is amazing.

Last night's vast audience manifested the warmest interest in this Edison tone test. Towards the centre of the platform stood one of the new Edison Diamond Disc Phonographs. Beside it stood Miss Cox, who sang duets with herself. Miss Cox paused from time to time, thus permitting the re-creation of her voice to be the re-creation of the quality of the tone was concerned, it was impossible to distinguish the original voice from the re-creation.

Miss Cox possessed one of those voices which is pure and colorful, and with no metallic or hard quality, a voice, in fact, which is about as different from the familiar tones of the talking machine as anything could well be.

The programme offered by the artists was of an inviting character. Opening with Clarke's "A Bowl of Roses," Miss Cox sang her way into the hearts of her audience. Occasionally she would stop in the middle of a phrase and allow the re-creation to continue. The comparison was arresting, while in the duet "The Magic Song," Meyer-Helmund the quality and expression of the singer and the re-creation blended in perfect harmony. In the violin numbers there was, of course, a slight difference in the total quality of the instruments played by Mr. Spalding in the re-creation and by Miss Proudfoot, but Miss Proudfoot proved herself a musician of ability. She contributed several violin numbers in faultless style, the rendering of Massenet's Meditation being decidedly impressive.

At the commencement of the programme an explanatory talk was given by F. J. Bird.

Saanich Tax Sale to Begin To-morrow at Royal Oak

Everything is ready for the Saanich tax sale, which will commence at 10 o'clock to-morrow at Royal Oak.

The number of lots to be sold is steadily decreasing, as payments are being made hourly in large quantities to save the sale of the lots.

R. R. F. Sewell, the Municipal Assessor, who is in charge of the sale, does not expect the total number to be offered will exceed from 500 to 550 lots. There are only five parcels of acreage offered, and these are expected to be redeemed before the sale starts.

The practice of holding a sale annually, which has not been departed from in Saanich since 1915, when it was adopted in spite of great opposition and pressure from outside, has enabled the municipality to keep its books clearer than most municipalities of British Columbia.

The sale will continue daily until all the lots have been offered.

SHIPPING CONDITIONS
NORMAL AT NEW YORK

New York, Sept. 1.—Work of loading and discharging British steamships approached normal to-day with the return to work of most of the men who last Friday "went on strike" in sympathy with the cause of Irish freedom. The Cunard Line announced to-day that they had all the men they required. The Anchor Line still felt the effects of the walkout, but all but one of its vessels remaining idle, but it expected to increase the force of longshoremen to normal before night.
Only a few hundred of the 4,000 longshoremen who walked out Friday are away from the pier, according to Joseph W. Ryan, vice-president of the International Longshoremen's Association.

FATALITY AT SPOKANE.

Spokane, Sept. 1.—Ten Sioux Poo and P. J. Jute, said to be wealthy planters of Java, were killed near here early to-day when a large touring-car in which they were en route from San Francisco to New York, left the road on a sharp curve and went over an embankment. Ros Dorell, who had been employed as the chauffeur, but was not driving at the time, escaped without injury.
Dorell said he believed the accident was caused by the inability of Poo, who was driving, to reach the brake because of his short stature, when he saw the curve.

BRIEF LOCALS

To Resume Classes.—Miss Kate McGregor, of the B. C. Academy of Music, will resume her classes tomorrow, September 2.

Amateur Photographic Society.—The Amateur Photographic Society will hold its first annual meeting on Friday next at 8 p.m. in the Exhibition Room of the Provincial Library. Everyone interested in the art will be welcomed.

Garden City Women's Institute.—The monthly meeting of the Garden City Women's Institute will be held at 2 p.m. on Thursday, at the home of Mrs. Blissett. It has been decided to have a social afternoon. Plans for the flower show will be the chief business discussed.

Change Date of Meeting.—The session of St. Paul's Presbyterian Church, Victoria, West, arranged to have the weekly meeting for prayer held this week on Thursday at 7:30 p.m., in order to leave the congregation free to attend the open meeting of the Presbytery on Wednesday night. Mr. Wm. Sloan will lead the Thursday night meeting.

Carveth Wells to Tell of Jungles.—G. Carveth Wells, explorer of the Malay jungles, will give his celebrated lecture at the Princess Theatre next Tuesday night to aid the fund for new uniforms for the G.W.V.A. band. Mr. Wells has just returned to Victoria from a lecture tour over one of the Eastern Chautauque circuits.

Jacob Dobrin Stood Over.—When Jacob Dobrin was called in the Saanich Police Court to-day, Coverdale Brethour, appearing for him, asked for an adjournment for one week. Dobrin is the life insurance agent charged with failing to pay a premium to the New York Life for which he was working. Magistrate Jay granted the adjournment.

Discharge Papers Missing.—When Thomas Lonsdale, war veteran, who lives at the Comrades of the Great War Club, was out walking last night he dropped his pocketbook containing a soldier's pay book, \$30 in bills, and discharge papers. The police are now looking for them, as it is feared someone may try to make use of the discharge papers.

Pillow Lace Making.—The art of making pillow lace as practised in Devonshire and other parts of England, is being taken up by some ladies in Victoria. They find it difficult to get the few implements required and at present are very short of bobbins. If anyone has any, or who knows where they can be procured or made, will communicate with the hon. secretary, Charles St. Barbe, at the Provincial Library, he will be much thanked.

Corner Club to Re-open.—The Girls' Corner Club will hold the opening meeting since its Summer vacation, at the Clubrooms, I.O.O.F. Hall, on Thursday. Supper will be served promptly at 6:15 p.m. and a large attendance of members and their friends is expected. Following supper there will be a short programme of music and recitations, and an address by the Rev. Dr. McLean. Any business girls who have not yet attended the Corner Club meetings will be made heartily welcome.

Carry Off Bananas.—Thieves broke into the Chinese store of Mew & Co., 1867 Pandora Avenue, by smashing the window transom and went off with quantities of fruit and other goods, including a bunch of bananas. Somebody broke into the backdoor of the Levy second hand store at 567 Johnson Street, Monday night, but nothing valuable was taken.

Makes Money Find.—When Mrs. Bayliss of 1037 Pendergast Street was out walking the other evening, she noticed a green colored piece of paper flopping on the sidewalk on Belvedere Street. When she picked it up she found it was a \$10 bill, according to a police report filed to-day.

Strawberry Vale Institute.—The Strawberry Vale Institute yesterday made plans for a silver tea to be held at the home of Mrs. Greenwood on September 15. The resignation of Mrs. Joyce was received with regret by the members. Mrs. Jones left the board of directors to fill the secretaryship. Mrs. Holt being elected as director to take her place. Plans were discussed for the joint flower show on September 5 of the Ward IV Cottage Gardeners' Association, and the Strawberry Vale and Garden City Women's Institutes.

A.O.U.W. Dance.—The reopening of the regular Winter dances and socials held by the Ancient Order of United Workmen, will take place to-night at nine o'clock in the K. or C. Hall, Fort Street. Mrs. Ridgway is the officer in charge. All those who attended the dances last year will remember the very successful and enjoyable

MANY DONATIONS TO SAANICH FAIR LIST

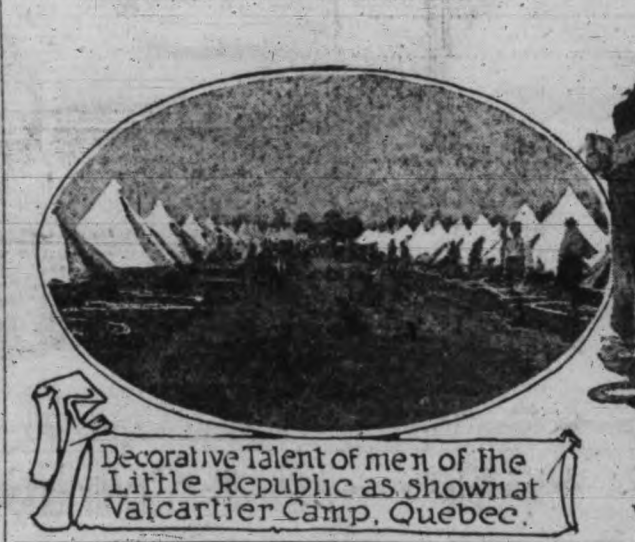

Promising Outlook For "Bumper" Event Much Space Being Used.

Final preparations are now being made for the annual Fall Fair of the North and South Saanich Agricultural Society to be held at Saanichton on September 13, 14 and 15. The outlook for a successful show, both from the point of the number of entries and patronage, was never better. People of the district are taking a keen interest in the event and all

PRESBYTERY NOW IN SESSION HERE

Resignation of Rev. T. S. Baynes Accepted From St. Columba

At the semi-annual meeting of the Victoria Presbytery in St. Andrew's Presbyterian Church this morning the members attacked the routine business of the session with a will. The resignation tendered by the Rev. Thomas S. Baynes, of St. Columba Church, Oak Bay, was accepted and Rev. David Lister, of St. Aidan's Church, was appointed to take vacancy pending the filling of the vacancy.

Rev. Dr. Clay moved a resolution of sympathy to the Rev. Joseph McCoy in the recent bereavement, when the latter suffered the loss of his son Leslie, and also in his own personal illness. Other business of a routine nature completed the arrangements for the morning session.

Mission Report.
This afternoon reports will occupy the attention of the gathering, when the Mission Report, Forward Movement report and other returns will be rendered by the clergy in charge of the various sections. One of the features of this afternoon's session is the suggested amalgamation of two churches in Sidney, B. C., the Presbyterian parishioners having appealed to their leaders for the joining of the Methodist and Presbyterian Churches in that district on the plea that there is not sufficient population to require the two edifices, to employ two ministers. It is understood that the Methodist congregation have also applied to their leaders for the same.

This evening a public meeting and rally of all the Presbyterian congregations will be held in St. Andrew's Church, when Rev. Dr. Eiler, of Vancouver, who is at present supplying the First Presbyterian Church, will give an address on "Religion in the Home." Rev. Dr. Smith, Principal of Westminster Hall, Vancouver will speak on "College Interests." A conference will also be held by the Sunday school teachers of the city on "teen age boys and girls."

The decision of this session will no doubt be arrived at this afternoon, as the question is set first on the agenda paper.

The Moderator, the Rev. Dr. Unsworth, of Nanaimo is presiding at the sessions, and the delegates include the following from outside points: Rev. A. F. Munro, Duncan; Rev. J. Dobbins, Qualicum Beach; Rev. Mr. Rowland, Union Bay; Rev. James Hood, Cumberland, and Rev. H. A. Bain, Alberni.

It will be welcome news to those Canadians who mix an understanding of this country's need of industrial and agricultural development with a desire to see the visible links of her romantic past preserved and perpetuated as far as may be possible, that just a little above the sixtieth parallel in the vicinity of Fort Smith there is still roaming at large a herd of wild buffalo numbering about one thousand strong.

This is the information brought back by F. H. Kitto, Explorer, Engineer of the Natural Resources Intelligence Branch of the Department of the Interior, who has just returned from an extended reconnaissance trip down the Peace, Slave and Mackenzie Rivers basins.

Mr. Kitto was a caller at the Parliament Buildings this morning for the purpose of renewing an acquaintance with Norman Watt, private secretary to the Minister of Lands, whom he knew in the Yukon several years ago.

As a result of his examination of a large area of the north, Mr. Kitto will recommend to the Dominion Government the creation of a big game preserve to include the whole of the buffalo country, so that its protection will embrace the many fur-bearing animals which also inhabit the area.

In order to post himself upon the numbers of the herd in question Mr. Kitto circled large areas and took photographs. He will, therefore, take back to Ottawa pictorial evidence of what he declares to be the only remaining collection of the wild specimen at large on the American continent.

RELIEF COLUMN SCATTERS ARABS ON PERSIAN BORDER
London, Sept. 1.—Arabian tribesmen who have been besieging the town of Tus Khumati, a mountain village on the frontier between Mesopotamia and Persia, 125 miles north of Baghdad, have been driven off by a relief column, says a bulletin issued at the War Office here.

It adds that the condition of Baghdad is becoming more disturbed. Reports that the town of Baku, thirty miles northeast of Baghdad, has been recaptured from the Arabs are confirmed by the bulletin, which adds that the station and town were sacked by the Arabs.

BOARD OF INQUIRY INTO AIR FATALITY SUBMITTING REPORT
Vancouver, Sept. 1.—The Board of Inquiry headed by Major A. M. Lester, C. A. F., which has been hearing witnesses and receiving evidence on details of the fatal crash of the plane piloted by the late Captain H. B. Brenton, expects to conclude its work to-day.

All evidence was in yesterday afternoon and the Board is now drawing up a report with findings which will be submitted to the Canadian Air Board at Ottawa.

If You Wish to Be Entertained by the World's Greatest Artists You Must Choose a

Sonora

THE INSTRUMENT OF QUALITY
CLEAN AS A BELL

More people have chosen the Sonora Phonograph this year than ever before—why? Because the Sonora provides a more complete tone, a more realistic expression of the artist's voice or instrument. It brings you into touch with every artist in the world who ever made a record; and it doesn't matter who the artist is—whether it be Caruso, Melba, Lauder, Galli-Curci or some unknown singer. If it is a disc record the Sonora will play it—will play it better than any other phonograph on the market.

May We Prove It to You To-day?

VICTORIA CITY, 1920 TAX SALE

Of Improved and Unimproved City Property will be held on
TUESDAY, OCTOBER 5TH, 1920
at 10 a.m. in the Council Chambers, City Hall.

At the above time I will proceed to sell by public auction all real properties in arrears for 1916 and previous years, together with all properties in default on which taxes are being paid on the instalment plan. In order to prevent real property from being sold, it will be necessary before that date to pay:

CLASS "A"
Those who are paying arrears on the ten yearly payment plan must have paid each instalment due, including that falling due on the 15th September of the present year, together with interest at 4%; and all taxes, General and Local Improvement, for the years 1918 and 1919.

CLASS "B"
Those who owe arrears of taxes, either General or Local Improvement, for the year 1916 or any previous year must pay in either of the following ways:

1. All arrears to the end of 1916 and interest at 4%.
2. Or all arrears to 31st December, 1919, in full, in which case 10% of all General Taxes will be deducted, and the interest on same will be cut in half.
3. Or ten per cent. will be deducted from the General Taxes and accrued interest thereon if One Tenth of the remainder, together with interest at six per cent. from the 1st January last is paid. Nine years of these payments will be charged at six per cent. instead of eight per cent. Tax Notices for 1920, showing all payments in arrears, due and accruing due have been sent out according to law.

Bring your Tax Notice to me at once and get statement of exact amount you will require to pay under your choice of the above settlement plan.

Investors and others may secure lists of properties liable to be sold at this Tax Sale at my office any time after September 17th, 1920.

IMPORTANT
Owners not liable to have their properties sold in this 1920 Tax Sale but who owe arrears for 1918 only, or any previous year or years, may settle on either of the last two plans. These are money-saving settlement plans and will avoid danger of next year's Tax Sale, but must be taken advantage of before October 5th. On October 4th these options close.

EDWIN C. SMITH,
City Hall, Victoria, B. C., August 25th, 1920. Treasurer and Collector.

TO WEST COAST

Rev. C. E. Mott Will Take Up Work Among Barclay Sound Fishermen, It is Reported

One of the most interesting personalities among those who have assembled for the semi-annual gathering of the Victoria Presbytery, is the Rev. Charles E. Mott, who is about to sail for the West Coast to take up missionary work among the fishermen and settlers of Barclay Sound, with headquarters at Alberni. Mr. Mott has had a long and intensely interesting career in the Highlands of Scotland, where he worked among penal institutions, and also remote fishing communities for some years. During the war Mr. Mott rose to the distinction of being in charge of the missionary work on the North Sea Mine Sweeping fleet of the British Navy, and along the East Coast of Scotland among trawlers and mine sweepers. The fleet was at that time under the command of Admiral Stantin, and Mr. Mott had charge of the missionary forces in all the fishing and smaller craft along the coast.

READY NEXT MONTH.
Washington, Sept. 1.—Airplane mail service will be established next month between Seattle, Wash., and Victoria, B.C. Postmaster-General Burleson announced to-day. Bids have been asked for operation of the service between October 15 and June 30, 1921 by hydrocopter, both cities being located on Puget Sound, eighty-four miles apart.

Two Right-Arms Killed Off Victoria's Chances

Cadman Caught Capitals' Base-Stealers in Early Innings and Wolfram Was Steady in Closing Stages; James Pitched Superbly; Bunched Hits and Error Bring In Only Run.

Yakima, 1; Victoria, 0.

Two steady right arms were responsible for the setback which the Capitals received at the Stadium last evening. One of these catapaults was the proud possession of Cadman, backstop of the Fruit-pickers, and the other was part of the anatomical paraphernalia bestowed upon Wolfram. In the early innings when Wolfram was stumbling about it was Cadman's sidewheel which persisted in getting the ball to the bases and cutting off runners. Then as the game progressed Wolfram's pinion got rid of the kinks and he turned the Capitals back with painful regularity.

Victoria should have won the game despite the one run which Yakima scored, due to two hits and an error by Zienke. Things did not seem to break right in the first four innings. The Caps were busting into Wolfram's slants and working him for passes but they could not get beyond third base. In both the second and third innings Victoria died with bases chock aback. The timely punch was lacking.

It was agony to see Russell James go down to defeat after pitching such a beautiful game. He let the Fruit-pickers down with four weak singles. His underhand delivery, which he had difficulty in mastering earlier in the season, worked to perfection and no Yakima hitter was able to get hold of a respectable piece of the ball. But James's flinging was to no avail.

The First Change Goes.

Victoria lost its first chance to score in the second inning. After Carman had struck out Dempsey hit the canvas with a fast, low drive. He tried to steal second, but he found Harrigan waiting for him with the leg. Church then followed with a one-base blow and Zienke chased Church to third with a slashing hit to centre. This, of course, would have scored Dempsey had he not been so keen on trying to pass a bag. Wolfram deliberately pulled Land, being afraid of him in a pinch. James hit a hard roller short and forced Land at second for the third out.

Then came another sunbeam in the second, but a cloud blotted it out before the fans had a chance to derive any benefit. Leard got his shoulder in the way of a fast one. He tried to burgle second but the sharp-shooting of Cadman killed him. The Brown walked and Carman rapped a single to centre, which allowed Brown to romp to third, where he expired for want of a second run. Harrigan did not like the looks of Dempsey's eye or bat, and walked him, filling up the pillows once more. The hopes of the fans faded as they were quickly doused by Church's grounder to Harrigan, which went for the third out at first.

The Roses Bloom and Die.

The roses blossomed again in the fourth, but a frost came along and killed him. Land led off with a single and James stirred the fans to life by punching a hot one through the infield. When Wolfram delivered a ball to Elliott everyone gave a gasp as they saw a great bulk making for third. It seemed hard to believe, but nevertheless it was Land trying to steal. Needless to say he was out by yards. James remained riveted to first base, making no effort to take Land's place at second.

The break in the game came in the sixth. Up to that time Yakima had only touched James for one single. Lafayette stopped a hard drive to centre and the ball ricocheted off Zienke, allowing the batter to make second. Barnabe cut a wicked drive to left field and Lafayette beat the throw in to the plate.

Brown Fails. In the seventh the Capitals made their last stand. Once more their ranks were shattered by the deadly throwing of Wolfram. With two away Elliott rapped out a single and Leard took another crack in the ribs. Brown had a chance to again be the hero, but he made too many preparations.

SPORTING NEWS

Entry List For Times' One Hundred Golfers to Play for Championship

Swim Continues to Swell

Strenuous training is now being indulged in by the swimmers who are entering the Times' long distance swim through Victoria on Saturday. While some of the harder girls are taking their dips into the cool waters off Dallas Road the bulk of the swimmers are cavorting in the warmer ripples at the Gorge. Yesterday afternoon a large number of the Marathon crawlers were in the brink of thrashing the water with their feet and arms.

This morning's mail brought a number of additional entries. They include Johnnie Hedley, of the Y. M. C. A., who swam in the race last year. Before going overseas Johnnie was a regular entrant. While on overseas service he had the misfortune to stop a piece of shrapnel with his leg. While swimming in the race last year his wound bothered him so much that he had to be taken out of the water. This season, however, the water and the exercise has not excited the old injury, and he thinks he will be able to complete the distance.

V. A. S. C. Entries. The entries of Grace Wellburn and George Silburn, of the V.A.S.C., were also received. Last year Grace swam a fine race, and this season, with her added experience and confidence, it is expected that she will be a very formidable competitor for the leaders of the past. Silburn is an unknown over the long distance. He has done surprisingly well over shorter distances in several of the Summer games. He has been training hard, and fully expects to be able to cover the distance.

The Elks will have several entries. They swimmers are trying out over the distance this afternoon, and promise to send in their entries in the morning. The Elks promise three swimmers, all of whom are good men.

FORMIDABLE SWIMMER

GRACE WELLBURN
Who will swim for the V.A.S.C. in the Times' long-distance swim. She swam a good race last year.

Muriel Daniels and Florrie Gates have also entered. They will swim for the V. I. A. A. Florrie is a 14-year-old water nymph, and Muriel has reached 15 years. Both are fine performers over long distances. It is rumored that the V.I.A.A. has a dark-horse in training for the event. Some say it is Harry Boyd. Time alone will tell whether or not the big polo player will try the distance.

Times Long Distance Swim Under Auspices V.I.A.A.

VANCOUVER TO BUILD ANOTHER CHALLENGER

Find Sloop Turenga Too Slow To Compete Against Sir Tom in Lipton Cup Series

Vancouver, Sept. 1.—Having made two unsuccessful attempts to capture the Lipton Cup, now held by the Seattle Yacht Club and won on both occasions by the speedy sloop Sir Tom of Seattle, the Royal Vancouver Yacht Club intends to build a brand new challenger for this blue ribbon emblem of yachting supremacy in the "R" class of sailing craft, and will issue a challenge for a series of international races for the \$2,000 trophy, to be held probably next July.

This was decided at a special general meeting of the Royal Vancouver Yacht Club last night. There was a singular unanimity of opinion on the part of the assembled Corinthians that the sloop Turenga has been found too slow to race against the Seattle flyer, a new challenger would be built.

OLD COUNTRY SOCCER NOTES

(By Veritas.)

There was quite a programme of soccer games in the English League on Monday, seven first division matches, nine second division games and three third division games being played.

In the first division Huddersfield continued to do good work. They beat Burnley by the only goal of the game, and this is the second Lancashire club that the Huddersfield team has disposed of within three days. Woolwich Arsenal, after falling, twice to the Villa on Saturday, returned home and defeated Manchester United by two clear goals. Brackley City followed up their win over Burnley on Saturday by defeating Sheffield United by four goals to nil. Manchester City took some of the starch out of the Aston Villa team by inflicting a 3-1 defeat on the Cup winners. Preston North End gained a point from Middlesbrough by participating in a goalless draw at Ayresome Park, whilst Oldham Athletic defeated Blackburn Rovers by a one goal margin. The Spurs did well to share the points with Derby County at Derby, each side scoring twice.

In the second division Birmingham, who were not far behind the two pro-

CANADIANS HAD FEW BREAKS AT ANTWERP

Antwerp, Sept. 1.—The remainder of the Canadian team left Antwerp to-day for England and sail from Southampton for Canada on the Scandinavian on September 16. The party will include Merrick, Knox, Wright, the Hoy brothers, Hogarth, Vandriault, Everett, Cameron, Phillips and Thompson.

Coach Merrick, who returned from Brussels this afternoon, declared that Canada's prospects were at their brightest when Ruggers' knee support broke. He informed Merrick who directed that a protest be lodged at once. Either through difficulty with the language or for some other unexplained reason, the starter refused to listen to the protest. He ordered the team to proceed or suffer disqualification.

Several of the teams have gone visiting the battlefields. Interviewed to-day, Coach Merrick declared that Canada had done better at this Olympiad than at any previous one, notwithstanding misfortunes to Cameron, Smoke and Phillips.

The boxers experienced the hardest luck as the result of faulty decisions by the international judges. The crowning performance of the Olympiad, in his opinion, was Earl Thompson's performance over the hurdles.

motored teams last season, seem to be making a determined bid for the honor of gaining a place in senior company, and they thrashed Hull City by five goals to one. Bristol City did well to defeat Blackpool away from home by the odd goal in three. Cardiff, one of the newcomers to the second division, proved the points at Cardiff with Clapton Orient.

Port Vale shared the points with Coventry City at Coventry, no goals being scored. Fulham, who may be reckoned on to finish strongly in the fight for promotion, defeated Stockport County by three goals to one. Notts County gained the second victory of the season, winning by one goal to nil over Barnsley. Sheffield Wednesday only managed to draw with Notts Forest at Sheffield, and apparently they are going to find it very difficult to climb back into the first division. Stoke defeated Rotherham 2-0 and West Ham gained a meritorious win over the Wolves at Wolveshampton by the odd goal in three.

In the third division Brentford beat Millwall by one goal to nil. Grimsby defeated Southend by the only goal of the match, while Portsmouth shared the points with Luton at Luton.

Cricket Yachting Lacrosse Golf

Success of First Competition For City Title Is Assured; Many Additional Entries Are Expected; Leading Lady and Men Golfers of City Will Be In Play.

One hundred entries for the city golf championship were in the hands of J. M. Wood, secretary of the entrance committee of the Colwood Golf Club, this morning. This list includes the most prominent golfers in Victoria and the officials of the Colwood Club are extremely gratified at the wholehearted manner in which the golfing community has rallied to the success of the first city championship ever planned. Mr. Wood stated this morning that he expected a number of additional entries during the day and announced that any entries bearing to-day's post mark would be accepted.

BUSY LOOKING FOR REFEREE FOR FIGHT

Jim Corbett May Be Third Man in Ring in Dempsey-Miske Scrap Next Week

Benton Harbor, Mich., Sept. 1.—With the championship contest between Jack Dempsey, the champion, and Billy Miske, the challenger, only six days off, the question of a referee for the title match received serious consideration in the camps of both men to-day.

Half a dozen men prominent in ring affairs are under consideration. Among them are James J. Corbett, former heavyweight champion; Jim Griffin, a referee of San Francisco, and Jim Dougherty, of Philadelphia.

Dempsey Cuts Loose. Jack Dempsey was in a punching mood yesterday, and for the first time since he started training for his championship match with Billy Miske, here, Labor Day, he knocked out one of his sparring partners.

Jack Riley was the victim. Riley, who claimed to have knocked out Bob Martin in Bordeaux, France, before the latter won the heavyweight championship of the A. E. F., lasted a little over a round. He displayed skill and energy at the start, but after a minute of boxing he slowed up and finished the round in a groggy condition.

Garnely he started the second round. They had been boxing less than a minute when Dempsey landed a short right jab to the chin and Riley's knees sagged and he would have sprawled to the canvas but Dempsey caught him under the armpits and held him up.

Dempsey also went two round each with three other sparring partners.

Protecting His Head.

Miske, wearing a felt headgear to protect his ears and the cut over his left eye, gave George Wilson, a negro light-heavyweight, a severe pummeling for two rounds.

MIDDLESEX ENGLISH CRICKET CHAMPIONS

Defeated Surrey in Momentous Battle at Lord's—Yorks Made Great Score

London, Sept. 1.—(Canadian Associated Press).—Though the competition has not yet quite closed, nothing can now affect the destination of the cricket championship which was settled by the matches finished yesterday.

Three leading counties were engaged, Middlesex and Surrey fighting their momentous battle at Lord's, and Lancashire, dealing with Worcestershire at Manchester.

There was feverish excitement over the Middlesex-Surrey match, especially in the middle stage, as it then looked as if Middlesex might be deprived of the championship. They, however, won by 55 runs. Had they lost, Lancashire, who now stands second, would have been champions.

Warner Retired. Warner, the Middlesex captain, has now retired from first class cricket. Yorkshire defeated Hampshire by the most remarkable batting. They were able to declare at 585 for three wickets. Holmes contributed 302 not out, the largest individual score of the season, and Sutcliffe made 131. Yorkshire's victory was by an innings and 235 runs.

Lancashire, with 194 and 100, beat Worcestershire 124 and 168, by nine wickets.

Essex, in a low score match, beat Somerset by four wickets. Leicestershire was defeated by Sussex for whom R. Rolf made 128 by eight wickets.

ROYALS TIE SCORE WHEN HESSE IS HURT

Vancouver, Sept. 1.—With the V. A. C. leading by a 5 to 2 count in the last period of the Mann Cup lacrosse game last night at Athletic Park between the V. A. C. and Westminster teams, Carry Hesse, the Vancouver goaltender, was hurt and forced to retire. McGonaghy was put in front of the net and the Royals scored three times, tying up the count by 5 all.

The Royals refused to play the tie out and the game stands as a draw.

SPORTS

IN OTHER LEAGUES

National League

Cincinnati, O., Sept. 1.—Singles by Boeckel, Mann and Holke in the tenth inning gave Boston two earned runs and a victory. The Reds had numerous chances to score, but could never get the hit when needed.

Score: R. H. E.
Boston..... 3 9 2
Cincinnati..... 1 7 1

Batteries—McQuillan and Gowdy; Eller and Wingo.
St. Louis, Sept. 1.—Pfeffer held St. Louis safe while Brooklyn batted three pitchers for sixteen hits, winning 5 to 2 and regaining first place. It was Pfeffer's ninth straight victory.

Score: R. H. E.
Brooklyn..... 5 16 2
St. Louis..... 2 7 1

Batteries—Pfeffer and Miller; Sherdell, Goodwin, Jacobs and Dillhoefer.
Chicago, Sept. 1.—Chicago was unable to do anything to Meadows while Philadelphia hit Alexander opportunely and won 3 to 0.

Score: R. H. E.
Philadelphia..... 3 16 2
Chicago..... 0 5 1

Batteries—Meadows and Wheat; Alexander, Carter and O'Farrell.
Pittsburgh, Sept. 1.—Pittsburgh staged a seventh inning rally scoring six runs and defeated New York 5 to 3, making a clean sweep of the series.

Score: R. H. E.
New York..... 3 14 1
Pittsburgh..... 5 10 3

Batteries—Barnes, Nehf, Douglas and Smith; Snyder, Ames, Winger, Hamilton and Schmidt.

American League

Boston, Sept. 1.—In a game twice interrupted by rain Boston defeated Chicago, 7 to 3, by bunching hits on Cicotte. Although hit freely, Bush tightened in the pinches. He led his team at bat with three singles. Felsch made a great one hand catch of Menosky's long drive near the centerfield bleachers in the first.

Score: R. H. E.
Chicago..... 3 19 1
Boston..... 7 11 0

Batteries—Cicotte and Schalk; Bush and Schang.
Philadelphia, Sept. 1.—Philadelphia and Detroit battled to a fifteen inning 3-3 tie game, the game being called for darkness.

The visitors waited Harris from the box in the first inning, but Moore, who replaced him, was steady. Hits by Dugan and Galloway were the chief factor in the local's uphill fight that finally tied the score in the ninth after two were out.

Score: R. H. E.
Detroit..... 8 16 3
Philadelphia..... 8 14 6

Batteries—Ayres and Atkinson; Harris, Moore and Perkins.
Washington, Sept. 1.—Cleveland defeated Washington, 7 to 1, by bunching hits off Erickson in two innings.

Score: R. H. E.
Cleveland..... 7 10 1
Washington..... 1 9 2

Batteries—Bagby and S. O'Neill; Erickson, Biemiller, Conway and Gharrity.

New York, Sept. 1.—St. Louis defeated New York, 3 to 2, in a game marked by light hitting. The visitors were aided in their run getting by the erratic pitching of Collins.

Score: R. H. E.
St. Louis..... 3 6 1
New York..... 2 5 1

Batteries—Davis and Severid; Collins, Shawkey, Quinn and Ruel.

PETER JOHNSON WINS

LAST HANDICAP RACE

The last 50-yard handicap race of the season was held by the V. A. S. C. last night at the Gorge. Peter Johnson, who has been a regular contestant in every handicap, but had never previously got a place, surprised everyone last night by finishing first. George Silburn was second and W. Barrett a good third.

Big Leaguers Use

Absorbine Jr.

Many of the stars in the big leagues use and endorse ABSORBINE JR. for the rub down after the game.

They know that "ABSORBINE JR." keeps their aching muscles strong and properly toned and prevents stiffness in joints and muscles.

"ABSORBINE JR." is the ideal rub-down and liniment for athletes.

Stomachaches and indigestion; chills; pains; heat; cuts and bruises; rheumatic twinges, etc.

Every amateur should make it a point to have a rub-down with ABSORBINE JR. before and after the game.

Lyman Building, Montreal.

ENGLISH CRICKETERS

LEAD FRANKFORD

Philadelphia, Sept. 1.—The Incognito Cricket team from England scored 282 runs in the first inning of their match with the Frankford club yesterday on the grounds of the Philadelphia Cricket Club.

Frankford had scored 51 runs for the loss of seven wickets when play was called yesterday. The match was resumed to-day.

GOULDING WANTS \$5,000 TO WALK WITH ITALIAN

Toronto, Sept. 1.—George Goulding, of this city, former world's champion amateur walker, received a cablegram to-day from Frigerio, the Italian walker, who won the world's championship walking contest at Antwerp, 1,000 and 10,000 metres, challenging Goulding to a match in Italy at an early date. The contest necessarily would be professional. It is understood that Goulding would be unwilling to walk for a smaller purse than \$5,000 and expenses to Rome. Goulding expressed the opinion that a bigger purse could be secured in New York than in Rome, and he will make this suggestion to Frigerio.

METROPOLIS FOOTBALL TEAM

Members and intending members of the Metropolis intermediate soccer team are requested to meet at the Metropolis billiard room this evening at 8 o'clock prompt for organization purposes.

DISPLAYS WILL

STRONGLY SUPPORT VICTORIA PRODUCTS

Victoria Merchants Arranging Splendidly Decorated Window Displays

Preparations for window displays of Victoria made goods during "Made-in-Victoria Week," are now being made by every firm which handles lines made in the district, and the plans under consideration assure that the decorations, calling attention to the home-made goods, will be as attractive as it is possible for the free expenditure of time and money to make them.

One of the outstanding features of the decorations and displays will be a patriotic effort to draw attention to the lines which might well be locally made, but are at present absent from the list of local industries. In response to requests from the publicity committee of the "Made-in-Victoria Week," many of the stores handling lines of imported goods are making specially attractive displays of goods which it is considered should be manufactured here, and will call attention to the need of local industries producing the goods displayed.

Arrangements are being made by the firms handling local products for large stocks of every Victoria made commodity, and with the co-operation of the manufacturers special displays will be arranged in the best locations available, both in the windows and in the interiors of the stores. Practically every store in the business district has set aside a special window, some have devoted their entire street frontage to the campaign, and the stores in the residential sections are also making special efforts to bring to the fore the output of the local factories.

LETTERS

Letters addressed to the Editor and intended for publication must be short, and clearly written. The longer an article the shorter the chance of insertion. All communications must bear the name, address, or the writer, but not for publication unless the owner wishes. The publication or deletion of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for MSS. submitted to the Editor.

THE GREAT NORTH COUNTRY.

To the Editor:—In this morning's issue of your contemporary, The Colonist, I observed a dispatch from Vancouver in regard to Board of Trade trip from that city to the Peace River district, leaving September 21, and detailing the route to be taken. It is imperative that our Victoria Board should join in, and loosen up and not lag behind. Business will not come to them; they have to go after it and establish connections, which, in the future, will be of enormous importance to the coast cities and their merchants. The bulk of Northwestern Alberta—some 300 miles east of the B. C. Alberta line—is tributary to the Pacific coast, and when the through railway connection is established either by the Pine of Peace River Pass or any other pass that may be found more practicable from an economical transport point of view, I have no reluctance in saying that even Edmonton and surrounding districts will be tributary to the Pacific coast. You have only to look at a map and compare distances between any point in the north-western part of the province and the head of the Lakes on the one hand and Vancouver-Victoria and Prince Rupert on the other. One has to see to believe, and that Northwestern B. C. particularly north and west of the Peace River, has a great future before it as a mixed agricultural, stock raising and dairying country. It is only too apparent to those who go and see. They have just what we want in the shape of grain, cattle, butter, eggs, and they want our lumber and fish, etc., etc. I have just returned from a 30-day trip along with Mr. W. J.

PLAYER'S

NAVY CUT

CIGARETTES

Bowser, leader of the Conservative opposition in the Provincial Legislature, to the Peace River country, and know whereof and what of I write. I revisited places I had last seen thirty years ago. Edmonton then had some 500 or 700 people. Now from 75,000 to 80,000. Peace River Landing when I was there in 1884 had one white man and two houses (which I saw); now a bustling town of from 2,500 to 3,000 people, and destined to be a very important point when presently the oil wells are proved commercially profitable, of which I have no doubt. I am very anxious that the city in which I live and like so well should profit, and that is why I say our people should set in on the ground

floor. Although there is no direct railway yet, it must come, and from this coast. Does anyone think that the Canadian Pacific Railway, who are operating the Edmonton, Dunvegan and B. C. on a five-year lease, will build westward from Spirit River? By no means, as they want the long haul over their lines from Peace River to Fort William. They have their eyes on the country north and west of the Peace River, extending to the headwaters of the Nelson and Hay Rivers and lying immediately east of that great mining belt in the Finlay and Ingenika Rivers. I have already spoken to the President, Vice-President and others of our Board of Trade, and impressed upon them the necessity of having

some of our people on the trip and hope this letter will help them out. HARRY M. GRAHAM, 310 Linden Ave., 1st Sept., 1920.

BOYS BEAT UP COOK

But New Upper Yates Street Gangsters Will Have To Pay Damages to Wife of City Comptroller.

Boys living in the upper Yates Street district went out looking for some sport the other evening and met the cook of Mrs. J. L. Raymur, 1315 Stanley Avenue, wife of the City Comptroller. In order to "start some

thing," they beat up the little Chinese so severely that the cook has not been able to come to work. Police have been sent out to round up the boys, whose names they have. Mrs. Raymur has also put in a claim for damages, which the boys will have to pay.

EXPLORE UNKNOWN LAND

Victorian Men Pioneer Their Way In to Country Up Vancouver Island Unknown To White Men.

W. Alexander Brethour is back in Victoria after an exploration trip of

the interior of the Northern part of Vancouver Island. Assisted by Norman Whittaker, he went into the district around the Second Campbell Lake, which is virgin territory to white men. From Courtenay the two explorers went by canoe up Campbell River, through the first Campbell Lake, and then on to the second. To get over the torrential rapids of the upper river they had to portage their canoe. They found the woods full of deer. They saw no indication of any big game. Their theory is that the deer are multiplying rapidly in that district because there are no carnivorous animals there to kill them off.

The trout in the waters are keen for the fly. It took the two men more than two weeks of hard travelling to make the trip in and out. They had no companions.

WHERE DID SHE BELONG?

"Yes," said the snobbish young lady, "I realize that it takes all kinds of people to make a world, and I can say I am very glad I'm not one of them."—The American Legion Weekly.

It would be a good thing if all revolvers were thrown into the sea.—Mr. Justice Roche.

AMUNDSEN LEAVES ON ARCTIC TRAIL

Explorer to Follow Footsteps of Fellow Countryman, Dr. Nansen.

San Francisco, Sept. 1.—Trails blazed across the Arctic ice pack a quarter of a century ago by Fridtjof Nansen, Norwegian explorer, were expected to be followed, for a distance, by Nansen's fellow countryman, Captain Roald Amundsen, discoverer of the South Pole, when he left Nome, Alaska, recently on an attempt to drift across or near the North Pole.

Nansen, in 1895, attempting the same drift, sailed around Russia and Siberia, and locked his boat, the Fram, in the ice off the New Siberian Islands, which lie in the Arctic north of Siberia. Amundsen, on leaving Nome, said he planned to sail to the same New Siberian Islands, let his boat, the Maud, freeze in the ice and then allow the winds and currents to carry him where they wished.

Explorers' theories that an Arctic Ocean current starts near the New Siberian Islands, runs through the Polar sea, across or near the Pole, and finally ends at Greenland, in the

Atlantic, were used by both Nansen and Amundsen as a base upon which they made their plans.

Existence of the current has been disputed by many Arctic authorities, who claimed the wind and not the current determined the route of the ever-drifting Polar ice. Nansen, one of the first advocates of the theory, pointed to the fact that wreckage from the exploring craft, the Jeannette, destroyed near the New Siberian Islands, was found two years after the wreck along the Greenland coast. A "throwing stick" used by Alaskan Eskimos was found, has been claimed, in drift-wood on a Greenland beach. The wreckage and the stick, it was argued, lodged on an ice floe which carried them across the Polar wastes to Greenland.

Nansen found the drift not as strong as he expected, mainly because the Polar basin was much deeper than he had believed. He also discovered that the wind determined, to a great extent, the route of the ice drifts. The Fram was carried to within 350 miles of the Pole and later cleared the ice near Greenland. When the drifting Fram arrived at the 52nd parallel, Nansen attempted to reach the Pole over the ice. With one companion he left the ship and, in what has been described as the most daring sledge journey ever undertaken, proceeded to the 86th degree, at that time, the farthest north ever reached by man. There he turned back.

The quarantine tender Madge is on the ways at the Victoria Machinery Depot, for her annual cleaning and painting. She will be off by to-night and resume service at the quarantine station at William Head.

BIG OIL TANKER TO DRYDOCK HERE

El Lobo On Way to Vancouver To Discharge, Prior to Cleaning at Yarrow's

The oil tanker El Lobo, reported in wireless yesterday as being 200 miles from Cape Mattery, inbound, passed on to Vancouver today, where she is to unload a cargo of oil, prior to coming to Messrs. Yarrow's, Ltd., Esquimalt, for cleaning and painting. The big tanker will be drydocked as soon as the motorship Pacific is let down again, the work being part of the annual overhaul that is given to the vessel by the Esquimalt shipbuilding plant.

The barquentine Pusko got away last night, towed by the tug Spray, making for Vancouver to take on a cargo of lumber for South Africa. Several scores are now on the ways at Messrs. Yarrow's for repairs and scraping.

The seaplane G-C, A. B. U., owned by the V. I. Aerial Service Company, was on the dock at the plant on Monday getting readjustments to the pontoons that had been installed on the Curtiss machine. After her repairs were completed the aircraft left for Nanaimo, making the time in one hour flat, with Pilot W. H. Brown and N. Goddard as passengers.

MYSTERY SURROUNDS RESCUE AT SEA

Juneau, Sept. 1.—After being saved at sea Sunday in an open boat as the sole survivor of the gas boat Sea Breeze, which sank in flames in sight of the rescuing party, E. C. Lilly is being held a prisoner while federal authorities are investigating the death of his partner, William B. Woodworth.

Lilly was brought to Juneau today from Port Walters. Lilly was rescued by Capt. Harrington of the gas boat Umami, two miles from the burning boat. He had Woodworth's effects and a quantity of provisions in his possession.

According to Harrington, Lilly admitted he made no effort to save his partner, who he said was below when an explosion set the boat on fire. The gas tanks were found floating near the spot where the Sea Breeze sank, and showed no signs of an explosion. It is said, Lilly could offer no explanation as to how he could row two miles after the fire gained headway. A second man, A. S. Jack, is also believed to have been lost with the boat. Lilly, however, asserted that Jack left the boat at Port Walters, and authorities are searching for him there.

The G.T.P. steamer Prince George, called here at seven this morning and sailed on the northern run at 11 o'clock with a full list of passengers for Prince Rupert and northern points. Tourist traffic is still filling all space berths on the northern steamers, while freight movements are remaining brisk.

LUMBERMEN WISH RAILWAY OFFICIAL TO COME HERE

Want Lumber Collection Point at Ogden Point Docks Is Latest Report

J. L. Beckwith, President of the Board of Trade, received a wire to-day in response to a night letter sent yesterday to D. B. Hanna, Chairman of the Canadian National Railways, inquiring as to the arrival here of a traffic superintendent in Victoria. In accordance with promises made to the local Board of Trade the Government railway was to send a traffic superintendent here to look into the question of a lumber collection point at the Ogden Point docks, action on which had been requested by the millmen here. The answer from Mr. Hanna received by the Board of Trade in response to Mr. Beckwith's wire was as follows: "Message received, our traffic superintendent now west of Winnipeg, and should be in Victoria in a few days. You will remember I told you he would be delayed here for the freight rate enquiry, but he will be on the coast in a few days now."

The project mooted by the lumber men is the establishment of a lumber collection point at the Ogden Point docks, where lumber shipments could be pooled and shipped direct from here, entailing a decided saving in time and expense over the existing method of individual shipment and towing of booms from place to place. The local lumber men hope to influence the promised emissary from the Government Railways to the point where he will see eye to eye with their interests.

SAILING CRAFT COMING INTO OWN, THINKS CHOLBERG

Wooden Sailing Vessels Have Pick of Cargoes For Next Ten Years

Increase in the price of steam coal, shortage of tonnage, and the ever-advancing cost of operating is driving the small steamer into the limbo of forgotten things, is the opinion of Mr. Chas. Cholberg, who stated today that the sailing vessel is due to have a very optimistic future before it for the next ten years.

"Every tendency of the times shows that sailing craft are the coming thing," he stated, "and the small steamers are going out of operation all over the world. Many thousands of tons in small steam craft are being laid up, as the costs of operation, due to the rise in price of coal and operation is becoming prohibitive. The steam vessel costs for fuel, costs nearly twice as much for crews, and is not so adaptable as the sailing craft, for the lumber trade."

"There is no doubt what the public see these wooden ships in operation they will become confident of the future of the sailing type of craft, and this sympathy will gain the implicit confidence of the people who have invested their money in the under-taking."

Progress on Hulls.

"The first hull, number four, will be ready to take the water between the first and twentieth of November," he continued, "while number five hull will be ready for launching about December 20. On February 1 or thereabouts, number six hull will be ready, while the fourth vessel hull number seven, which will have been the ways vacated by our first one, will probably take the water about March 15, next year."

"Number four hull, the first wooden ship, was laid on May 1 this year, and we are bending every effort to get her into operation before the end of the year. The keel of the second ship, was laid on May 15, and the third on June 4. The last keel is to be laid as soon as the first vessel is off the ways."

Present Payroll.

"We have now a payroll of some \$40,000, and the confidence of the public will be gained as soon as the wooden ships are in operation. This is the day of the sailing vessel, and we know that the next ten years will see a great future for wooden sailing craft."

Mr. Cholberg thought that the four wooden barquentines, when completed would ply in the lumber trade to South Africa, or handle general cargo such as flour, in which there is considerable movement just now. Shipbuilders the world over are reverting to the wooden sailing craft, contending the local builder, and that class of vessel would have a great influence on freight rates that even now are showing a decided tendency to rocket, after the manner of their railroad brethren.

Number six hull, the third vessel under contract with the Victoria Shipowners' L.L.L., is being slightly delayed by the difficulty in obtaining the requisite lumber on time, but now stands with half the square framing in place. The first vessel is nearly completely enclosed, while the second is progressing rapidly.

In speaking of the brilliant future before the sailing craft, Mr. Cholberg referred again to the remarks of the Minister of Marine and Fisheries, the Hon. C. C. Ballantyne, who was visibly impressed with the utility of that type of craft, and stated that he had suffered a change of heart, having before being very much against the building of wooden vessels.

BRENTWOOD HOTEL

GOLFING, FISHING, SHOOTING, BATHING, BOATING, SAILING, PICNICS, TENNIS, BADMINTON, BILLIARDS

The MAXIMUM rates by the week for best double room, with private bathroom and full board, would be \$2.00 a day for each person, but there are cheaper rooms.

There are bigger hotels, cheaper hotels, but there is no better hotel than the Brentwood Hotel in the world.

The S.S. Governor will arrive tomorrow on scheduled service from the South, sailing again on Saturday with a full list of vacationists returning after the summer holidays spent on the Island and Mainland points.

FEARING RAID, POLICE GUARD WHISKEY LOAD

Officials Anxious To Keep Big Shipment of Liquor Safe From Thieves

The way whisky thieves have recently been organizing big raids on warehouses and carting away liquor by the motor truck load, determined Capt. Kelly of the Outer Wharf that none of the big shipment now there would disappear while it was under his care.

There have been rumors that another big whisky raid was being planned following the success of the last, when a warehouse on Wharf Street was cleaned out by men who took a motor truck along with them. The big shipment at the Outer Wharf arrived at the first of the week on the Crown of Galicia. Capt. Kelly has now had a police guard placed over it so that there will be no chance for bootleggers to make any coup.

The time used in Pacific standard, for the 12th meridian west. It is counted from 0 to 24 hours from midnight to midnight. The figures for height serve to distinguish high water from low water. Where blank occur in the table, the tide rises or falls continuously during two successive tidal periods without turning.

The height is in feet and tenths of a foot above the average level of lower low water.

Esquimalt.—To find the depth of water on the sill of the dry dock at any tide, add 15.0 feet to the height of high water as above given.

"FREEZONE"

Lift Off Corns! No Pain!

Doesn't hurt a bit! Drop a little Freezone on an aching corn, instantly that corn stops hurting; then shortly you lift it right off with fingers. Truly!

Your druggist sells a tiny bottle of Freezone for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the chafes, without soreness or irritation.

MACDONALD'S CUT "BRIER"

"Brier" Smoking Tobacco has become a Canadian institution. More men smoke "Brier" than any other tobacco in Canada. It leads in quality—and leads in value.

Now "Brier" comes in new form—Macdonald's Cut "Brier"—the same tobacco—prepared under the Macdonald standards established in 1858.

Still leading in value. Macdonald's Cut "Brier" gives more tobacco for the money in the 1-12 lb. package for 15c.—\$1.80 per pound.

1 1/2 lb for 15c

ROYAL VICTORIA

"Flattery is like champagne—Delightful while taking but sickening in its after effect." Thus does Norma Talmadge, the bewitching little motion picture star, describe that gentle art whose use has been in vogue ever since man could speak and woman would listen.

"Flattery has toppled thrones, changed history, separated thousands of happy couples, peopled the underworld and divided kingdoms," continues Miss Talmadge. "Nor is it an art exclusively used by mere man. Women have used it with telling effect as witness the wily Cleopatra and other professional royal flatterers." In the case of flattery we can reverse Kipling's famous lines—"The

female of the species is more deadly than the male—a man capable of saying 'pretty things in a pleasing way can easily mould to his desire most any susceptible woman or girl.' And it is this same theme that makes 'Yes or No' Miss Talmadge's latest photoplay—a First National attraction, instructive as well as entertaining. In it the audience is shown the male flatterer at his deadly work both in the home of wealth and the humble tenement—it shows the male vamp in evening clothes and the pursuer in livery—both deadly and dangerous. It graphically describes how two women in diametrically opposite stations of life accept the attentions of this despicable type of man. This picturization of a subject vitally interesting to all women will be shown at the Royal Victoria

Do I have to say that this cream helps my complexion?" asked Miss Daniels.
"That's the idea," returned the enthusiast.
"Well, I'm afraid it's off then," said Bebe, "because I never use anything for my complexion except oranges. Oranges for lunch every day. They're better than any face cream ever invented."
Local movie-goers who see Miss Daniels with Wallace Reid at the Dominion Theatre will probably be anxious to try out this fruit-beautifier.

VARIETY

Hobart Bosworth is right at home as the New England diver-hero of "Below the Surface," in which he will be seen at the Variety Theatre again to-day. No actor has been more successful in using strongly dramatic stories of the sea as starring vehicles on the screen than Mr. Bosworth. He comes by his love for the sea and his nautical knowledge naturally, for he sailed before the mast for several years and holds a master's license in the mercantile marine. Mr. Bosworth toured the country in vaudeville a few seasons ago in a tabloid edition of "The Sea Wolf," with singular success. His previous photoplay, "Behind the Door," will live long in the minds of all who have seen it. "Below the Surface" is declared to be an even more absorbing picture. It was produced by Thomas H. Ince for Paramount Artcraft release and was directed by Irvin Willat.

COLUMBIA

The story of "Treasure Island," now on the Columbia screen, is as follows: Jim Hawkins, a frail boy, and his mother keeps Benbow Tavern on the English coast. Seafaring men frequent it—One day Captain Bill Bones comes there. Folks whisper that he is an ex-pirate. Soon afterwards Black Dog, a ferocious looking sailor-man, appears. Bones drives him away with his cutlass. He tells Jim that in the event he (Bones) is suddenly killed, Jim is to have his sea chest. A blind man named Pew shows up at the inn. Bones is found dead. Looking through the chest, Jim finds the chart of a buried treasure. In the act of inspecting it, he and his mother are beset by pirates and barely escape. Their neighbors, the Squire and the Doctor, fit out a ship to hunt the treasure. Forbidden to go, Jim stows away in the vessel and overhears Merry, Morgan and other rough members of the crew planning a mutiny. He tells the Squire. The mutineers are overpowered and set ashore. They kidnap Jim, but he escapes. A big battle takes place with the pirates when the ship is anchored. The Squire and his party win out and finally discover the treasure. After many adventures they sail and return home.

MIRACLE MAN AT ROMANO TO-MORROW

Published originally as a novel in Munsey's magazine, written by Frank L. Packard and later dramatized by George M. Cohan and presented with phenomenal success on Broadway, the Paramount-Artcraft picture, "The Miracle Man" comes to the Romano Theatre on Thursday. As a motion picture this absorbing story has been hailed by the critics as one of the finest productions ever seen on the screen. With scenes laid in the haunts of criminals in New York's Chinatown, in a little village on the side of a giant mountain and on the shore of a roaring ocean, the opportunity for wonderful photographic effects has been realized to the limit. But the chief interest is in the

striking story, which centres about the venerable figure of an old patriarch, who is credited with the power to heal the sick and make crippled limbs whole again. To him come Tom Burke and his band of crooks—from New York's Chinatown with the idea of cashing in on his powers. But it doesn't work out as they calculated, for hidden away in each of them is a leaven of good, which slowly comes to the surface under the influence of their wholesome environment. In a most marvellous way the criminals are reclaimed from the paths of crime. A cast of unusual ability enacts the important roles in the picture, headed by Thomas Meighan, a well known leading man, and including Elinor Fair, Betty Compson, Joseph J. Dowling, Lon Chaney, W. Lawton Butt, J. M. Dumont, Lucille Hutton, and F. A. Turner.

ENGLISH OPERA CO.
AROUSES INTEREST

Announcement of interest is that made by the management of the Royal Victoria to the effect that arrangements have been completed with The Royal English Opera Co., John J. MacArthur and Laurence A. Lambert, whereby the music lovers of this community will be enabled to enjoy a limited season of standard opera comique. This company is making its first annual tour and when it played at the Columbia Theatre in San Francisco recently, was acclaimed by the critics as the finest organization of its kind ever to appear there. It remained for

NEW PANTAGES SHOW

FEATURED BY COMEDY
One of Vaudeville's Best Tabloid Musical Offerings,
Is Headliner

"A twenty-minute display of love, laughter and lingerie" is the description that has been given the musical comedy featuring the Pantages bill this week, commencing with to-day's matinee. "The Little Cafe" is one of the outstanding acts of its kind in vaudeville—replete with fun and action. It is a romance of Greenwich village and introduces a variety of music and dances that is very fascinating. An exceedingly funny comedian, a clever leading woman and a chorus of maids of exceptional beauty make up the cast. Music is also a big feature in the added attraction presented by Charles Klass and Joe Termini, whirlwind entertainers who know the secret of keeping their audience on edge every minute. They offer violin, accordion and piano selections, operatic, popular and tagline.

A farce comedy that has never failed as a mirth-maker is "Hunting," presented by Barney Williams & Company. Barney Williams is just about a whole show in himself, and in this sketch he has able assistance. The act brings in a lot of complicated situations of the laughable kind. Those inimitable creators of nonsense, Morgan Davis and Lulu McCoy, will offer some new and very entertaining comedy songs, as well as a line of snappy patter. The gorgeous gowns worn by Miss McCoy are one of the features of the act. Ward Brothers present, in addition to some witty dialogue of an original and mirthful kind, present some clever eccentric dancing. And they have voices, these Ward Brothers. Their singing of the yodelling, jazz blues song is in a class by itself. A novel gymnastic act staged by Kremka Brothers opens the bill. Interpersing their athletic feats with comedy, these young men, wonderful exponents of physical development, who stand pre-eminent among to-day's gymnasts, give a most interesting and enjoyable programme. "Trapped in Chinatown" is the title of the second episode of "Trilled by Three," the Pathe thriller now being shown at Pantages in serial form.

"CINDERELLA MAN" AT PRINCESS THEATRE

Mildred Page Players Will Have Attractive Offering This Week

"The Cinderella Man" will be the next offering of the Mildred Page players, and to say that it is a beautiful play puts it mildly, for there is so much that is sweetly romantic and humorous and pathetic all blended into one great whole that it is truly difficult to find words in which to describe it. People who are blessed with a keen sense of humor while still leaning a bit toward the serious things of life will be charmed by the delicate handling the author has given his theme in this sweetly beautiful play. The cast will be splendid, as the players are all playing parts well suited to them. "The Cinderella Man" is a play of high ideals and it cannot help but appeal to the hearts of all who witness it. Beginning this evening it will continue during the balance of the week, with Saturday matinee, evening performance at 8.30, matinee at 2.30 o'clock.

TO FILM VERSION OF IBANEZ'S FAMOUS NOVEL FOR SCREEN

A consignment of rare antiques, collected in Italy and other European art centres, has just arrived in Los Angeles by way of the Panama Canal, to be used in Metro's production of "The Four Horsemen of the Apocalypse." Reproduction of the old prints, tapestries, paintings and other bits of century-old art as mere incidents to a story of action, will mark an epoch in picture production. Heretofore, such gems have been copied or remade in property rooms because of the theory that the genuine could not be recognized on the screen. Rex Ingram, who is directing the Ibanez novel, found that copies would not fit into the programme of production work that has already demanded the building of an entire French village and the copying of a historic castle on the Marne. As a consequence, he has spent all his leisure for weeks scouring the art world for rare old treasures to be used in a scene depicting an artist's studio in the Latin quarter of Paris. The collection is the result of an exhaustive search of several weeks, and contains many priceless works of art. A friend of Mr. Ingram, a well-known connoisseur, recently returned from a trip abroad and placed at his disposal many of the articles which he had gathered for his own collection. Among the rareties is a hand-carved easel, or Italian chest, the product of the woodworkers' art of four centuries ago. Among the tapestries, all of which are priceless, is a genuine Reymond's Flemish tapestry of the 16th century.

This piece alone is valued at \$50,000. The cast of "The Four Horsemen of the Apocalypse" includes besides Alice Terry and Rudolph Valentino, who are taking the leading roles, Pomeroy Cannon, Alan Hale, Stuart Holmes, Mabel Van Buren, John Sain Pitts, Virginia Warwick, Edward Connelly, Brinsley Shaw, "Smoke" Turner and others. June Mathis adapted the famous novel by Vicente Blasec Ibanez for the screen and is assisting Mr. Ingram in every detail of the production.

Medical Association.

Cassidy, Aug. 31.—At a general meeting of the Granby Medical Association, held last evening, a plan of medical and hospital service was initiated which is probably wider in its scope of medical service than is rendered by any Industrial Medical Association in Western Canada.

The members decided in favor of a monthly assessment of \$2.50 per man to cover medical attention and hospital service to workers, including wives and families, for all ailments, also treatment by specialists when necessary and including medical and hospital attention to maternity cases. The circumstance is somewhat unique in that the single men voted enthusiastically to support the principle of equality of sacrifice by all, and eagerly voted down all amendments to lessen the medical fee for unmarried men.

Granby Community Club.

Cassidy, Aug. 31.—The football committee which managed the Granby team through the Nanaimo League, and was so successful in its management that it came within one game of winning the cup, decided to resign in a body with a view of reorganizing the committee before entering the Upper Island Football League. A well-attended meeting of football fans was held last evening to elect a new committee. All the old committee were unanimously re-elected and plans were made to raise funds for the expenses of the fall season.

Annual Meet.

Nanaimo: The Vancouver Island Mine Safety Association, which held so successful a field day last September in Nanaimo, will have its fifth annual meet at Ladysmith on Monday, September 6. There will be the International Mine Rescue Competition for the Association's shield, with first and second prizes, and first aid work for the B. C. Mines Department Cup, with first and second prizes, and for the W. L. Coulson Cup. The names of intending competitors must be in the hands of W. H. Moore, the secretary-treasurer, by August 25. There is sure to be very keen competition this year, especially for the B. C. Department of Mines shield. This was won by Capt. Evans' team of the Pacific Coast Company, Black Diamond, the second prize among the nine competing teams having been also carried across the border by the Roslyn men, of Roslyn, Washington. The Vancouver Island teams are determined to rescue the shield from the care of the Stars and Stripes. The Mines Department Cup for first aid was captured by Capt. Jensen's men of the Canadian Western Fuel Company, Capt. J. Barton, of the same company, carrying off the Coulson Cup.

Married in Nanaimo.

Nanaimo—J. Fielding and Mrs. E. Morgan, both of South Wellington, were married Monday in St. Paul's Church, Nanaimo, Rev. S. Ryall performing the ceremony.

forming the ceremony. The bride was attended by Mrs. T. Manion, the room being supported by T. Manion. After luncheon at the home of Mr. and Mrs. Manion, the bridal couple left by the afternoon boat for a honeymoon trip to Seattle and Portland.

Mines Rescue Work.

Ladysmith.—For the fifth annual field day of the Vancouver Island Mine Safety Association next Monday in Ladysmith, teams from eight centres have already entered for competition. From Fernie, Michel, Newcastle, Washington State, Cumberland, Nanaimo, Ladysmith, Cassidy's and Nicola Valley. The Association's shield is the coveted honor for mine rescue work, including gold and silver medals for first and second prizes. The teams, wearing oxygenating apparatus, such as the Draeger, Proton, Gibbs or Paul apparatus, remain for four minutes in a smoke-house, flooded with sulphurous fumes and then carry out from an extemporized imitation mine gallery, a patient as if overcome by the afterdamp, and perhaps injured in the explosion. This shield, which Nanaimo held in 1915, was captured last year by an American team from Black Diamond, Washington; Roslyn, also of Washington, taking second place. With Fernie third. Distributed among fourteen coal centres are 115 of the mine rescue apparatus, forty-four of which belong to the British Columbia Government-owned. For every thirty-four persons employed underground in coal mines there is one mine rescue apparatus and one oxygen resuscitating apparatus for every 115 employed underground.

NEWS AND NOTES OF THE MINES

Big Missouri

Both diamond drills on the Big Missouri Mine Stewart, have closed down and it is understood that the Pacific Exploration Co. does not intend to continue work on the property. Lack of guiding leads is given as the reason for the cessation of activities.

California Mine

After extensive alterations and additions covering some eight months, based on extended tests by various laboratories on the gold ore of the California mine, the California-Althaus mill on Givens-out creek, on machinery new and old tuned up to harmonious working, is now steadily talking business and winking the echoes. As a result of the adjustments made during its one week of operation, it is now smoothly and efficiently crushing to a fine powder the California ore, extracting the free gold and reducing compounds to a concentrate, says the Nelson News.

C. E. Crossley, who largely designed the mill in its present form, is in charge of it. Under Manager W. H. Turner, of the California Mining company, which has the mill property under lease, in association with the California mine, the hope on which is nearly completed. The company represents Seattle capital.

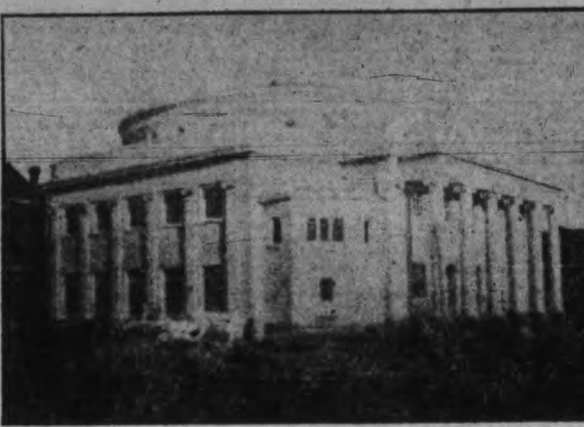

New Strike

A new strike has been made at Rivers Bright at the northern end of Princess Royal Island, and 14 claims have been staked. The vein is said to be 40 feet wide, heavily mineralized, and similar to Surf Inlet ore.

Gold Production Costly

Suspension of operations at its Shawmut mine in the Mother Lode region of California, by the Tonopah Belmont Development Co., the parent company of the Belmont-Surf Inlet Company, is another instance of the impossibility of operating anything

HANDSOME NEW CHRISTIAN SCIENCE CHURCH NOW IN USE AT HEAD OF PANDORA AVE.

but rich gold mines under present conditions of the labor and supply markets. Last January the ore reserve in this mine was estimated at 435,000 tons, the grade of ore, however, is not sufficiently high to enable profitable operations under existing conditions.

Rich Ore Strike

That Charles Otteson, operating mining property at Funder Bay, near Juneau, has made a fabulously rich strike of gold quartz is the news brought to this city by recent arrivals from that place. The ore is said to run well into the thousands of dollars per ton in gold values and is now being sacked and carried to the mill for treatment.

It is said that Mr. Otteson, who has held the property for a number of years, has run an extension of a tunnel that was run several years ago to crosscut some ore veins. After going only a short distance a new vein of rich quartz was uncovered far surpassing anything yet found in that vicinity. Mining men who have visited the property lately are enthusiastic over the rock, but do not know what size the vein is or how far it has been traced.

Mr. Otteson, with his son-in-law, C. L. Tubbs, has been working on the Funder Bay claim steadily all Summer. Both are still there. The claims are near those of the Admiralty Alaska Gold Mining property in Funder Bay, on which extensive development work is now being done.

Kitsumkalum Lake

E. F. Michaud has a property on Kitsumkalum Lake where the native silver runs from 200 oz. to 300 oz. a ton. Adjoining is the New York group owned by Oscar Glander, Oscar Gendron, Jack Couture and Paul Brodli. On this property there is a tunnel 100 feet in depth and there is some good shipping ore on the dump ready to send to the smelter. Averages high in native silver. Some very rich stuff is being taken out of the old Kirkpatrick property on Kirkpatrick Mountain up Cedar River. This is being worked by four men, Bellway, McLaren, Couture and Gendron.

Kitselas Concentrator

The Kitselas Concentrator Copper Company's new concentrator is doing good work. There were some little difficulties to overcome at first, but these have now been adjusted and the mill is running steadily and the first shipment of concentrates will be made very soon, says an U.S. message to the Prince Rupert News.

Good Values

The mill is located near the foot of the mountain close to the railway and on the wagon road to U.S. The

ore being mined is mostly from the surface showings and runs about 45 ounces to the ton in silver, 45 ounces in copper and \$24 in gold. There is a quantity of free gold which in places shows itself in the form of nuggets and gold wire.

The company has installed and is operating a 30-ton Gibson mill with a concentrating table. The gold is caught in mercury cells and the finer gold on amalgam plates. Then the crushed granite is separated from the metals on the table, a flow of water washing it off while the heavier minerals are carried to one end and caught.

A crusher breaks the rock fine enough to pass through a 7-inch mesh screen and the mill does the rest.

Considerable Development

On the property there is about 700 feet of tunneling and some rich ore has been struck but the extent of the ore body has not been determined. There are several veins and all will pay for working so there is no danger of running out of ore. For a long distance along the face of the mountain the vein has been stripped and there is always the probability of striking a larger body of ore as they work into the mountain.

Officers

The Kitselas Company was formed to mine the Cordillera group of claims located in 1914 by Jas. Darby and J. D. Wells. The present company was formed in 1917 and the mill installed last fall although it did not commence operations until this Summer. P. M. French is president of the company and engineer, while Mr. Thompson is a director in the concern and mine manager.

Lead Production

The production of refined primary lead in the United States is reported by the Geological Survey, in short tons, as follows:

Total refined primary	1918.	1919.
Production of antimonial	640,195	482,230
Lead	18,570	13,874

The consumption in 1919 is placed at 424,143 tons against 342,976 tons in 1918.

Rand Gold Output Larger

Official figures now available indicate that the output of gold at the mines of the Rand in July was 746,089 fine ounces, compared with 715,957 fine ounces in June and 699,041 fine ounces in May. In July a year ago the total was 725,497 fine ounces.

WOMEN PICKET CHICKEN DEALERS

Consumers' League Strike Brings Down Price Nine Cents on Pound

New York, Sept. 1.—A strike against chickens is the latest move to bring down the high cost of living, according to about 100 women who picketed the shops of butchers and chicken dealers on the east side, in Harlem and in the Bronx, in an effort to discourage the buying of chickens until prices are reduced.

The strike was initiated by the Joint Board of the State Socialist Consumers' League, with headquarters at No. 106 Avenue C. Fifteen branches of the league have endorsed the strike and urged members to refrain from buying fowl at present and to picket shops where it is sold. Handbills distributed read as follows:

"Owing to the sky-high prices of everything at present, and everybody striking, it was voted at our last meeting to call a strike against chickens."

"It is your duty, wives of hard-working laborers, to enter this battle. You, yourselves, stop buying chicken and do not allow others to buy. Picket your butcher. Picket your chicken store."

"We have already sent notice to all butchers and chicken store owners not to take chickens into their establishments, because nobody will buy them."

Mrs. Rose Elias of No. 100 Avenue D, who organized the strike, said that the price of chicken already had been brought down from 54 cents to 45 cents as a result of the boycott. "We can get along without chicken rather than give to the Chicken Trust the hard-earned money our husbands make," she declared. "There were fifteen or twenty wholesalers on the east side. Now there are only four, and they seem to work together. We have asked the Commissioner of Markets to give us the price of chicken each week and we will pay 3 cents more to the retailer."

"High prices are not the fault of the retailers. They have to do as the wholesalers say. When they refuse to pay the price demanded and go to another wholesaler they find that he has been warned and they are asked to pay even more."

Most of the east side chicken stores closed. But they opened during the afternoon. "One retailer said, 'I would keep my shop closed, but a

Last Night's Audience Mystified by Phonograph

Hears Famous Contralto

Compare voice with RE-CREATION by Edison's new phonograph—could not tell the two apart

MARION EVELYN COX, the popular contralto, gave an extraordinary recital last night at the Empress Ballroom.

Miss Cox walked on to the stage and stood beside a stately cabinet. She began to sing "A Bowl of Roses." The audience immediately yielded to the spell of her beautiful voice. Then suddenly there was a stir—a subdued murmur of surprise—and a perplexed rubbing of eyes. The voice continued to fill the auditorium with undiminished sweetness—your ears were proof of that—but her lips had become absolutely silent—your eyes told you that.

What wizardry was this? It was the test of direct comparison with the living artist, which Thomas A. Edison has developed to demonstrate that the Official Laboratory Model of his new phonograph will sing any song exactly as it was sung by the artist, and that his Re-Creation of a singer's voice, as it comes from his wonderful new phonograph, positively cannot be distinguished from the singer's actual voice, when both are heard in direct comparison.

Miss Cox made repeated comparisons—always with the same result. It was truly wonderful. This master achievement of the great wizard, Edison, marks a new epoch in music.

Drawn From Actual Photograph

The NEW EDISON

"The Phonograph With a Soul"

You can have a duplicate of the wonderful instrument used at the Empress Ballroom and, if you act quickly, we can furnish you with an engraved certificate (signed by Miss Cox) certifying that it is an exact duplicate in tonal quality of the instrument she used in her amazing comparison; also that it will sustain precisely the same test.

We have eight of the famous Official Laboratory Models and Marion Evelyn Cox has certified every one of them. Come to our store at once and ask to see and hear the Official Laboratory Models on which Miss Cox has issued her Certificates of Authenticity.

First Church of Christ Scientist

VICTORIA, British Columbia ANNOUNCES TWO

FREE LECTURES ON CHRISTIAN SCIENCE

BY

Paul Stark Seeley, C.S.B.

Of Portland, Oregon

Member of the Board of Lectureship of the Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts,

IN THE NEW CHURCH EDIFICE

Corner Chambers Street and Pandora Avenue

ON

THURSDAY, SEPTEMBER 2nd and FRIDAY, SEPTEMBER 3rd 8 P.M.

The second lecture is a repetition of the first.

YOU ARE CORDIALLY INVITED TO BE PRESENT.

IT CURES CATARRH BRONCHITIS

You don't have to wait for relief when you use Catarrhine. This wonderful inhaler treatment is guaranteed to cure any case of Catarrh no matter how chronic. You breathe through this inhaler and in so doing you send instantly all through the breathing organs a powerful vapor that is full of soothing, healing, germ-destroying properties. In this way the seeds of Catarrh are destroyed. Sore nostrils and weak throat are cured. Coughing, hard breathing, and sneezing all stop. For lasting cure use only Catarrhine. Refuse a substitute. Two months' treatment (including the inhaler), price \$1.00. Small size 50c, at all dealers, or The Catarrhine Co., Kingston, Ont., Canada.

STUDYING FOR PLAN TO OPEN CHINESE BANK

New York, Sept. 1.—Establishment of the first New York branch of a Chinese bank will follow closely upon the return to the East of a party of prominent Chinese bankers and business men who are now here to study American banking and commercial conditions and to make preliminary arrangement. This party includes Li Yuk Tong, managing director of the Hong Kong Life Insurance Company and Lunyick Fire & Marine Insurance Company, chief secretary of the Shanghai Fire & Marine Insurance Company, and a member of the advisory committee of the China Mail Steamship Company; Li King Kee, a leading merchant of China and his country's delegate to the Red Cross conference at Geneva, and Zau Ding Liao, son of the latter, who was educated at Lehigh University and is acting as interpreter for the party. In addition to settling up a branch of a Chinese bank here, the interests represented by members of this party

have in mind the extension of Chinese marine insurance business to the Chinese-American trade and the encouragement of shipping under the Chinese and American flags. The re-employment of the Pacific Mail Steamship line in 1917 left our Pacific ports wholly dependent upon Japanese steamship lines to the Orient, so far as direct communications are concerned, until the organization of the China Mail Steamship Company by Chinese residents of San Francisco. This company now has three vessels in service and is planning additions to its fleet. Another steamship line is being organized by South American Chinese, which is to ply between Chinese ports—Honolulu, the West Coast of South America and New York via the Panama Canal.

AND IN MOST BOYS.

4,000,000 PEOPLE

Annually use these tablets of organic iron—Nuxated Iron—to build up red blood, strength and endurance.

Dr. H. B. Vail, formerly Physician in the Baltimore Hospital and a Medical Examiner says: "There are thousands whose bodies are aging and breaking down at a time when they should be enjoying that perfect health which carries defiance to disease simply because they are not awake to the condition of their blood. By allowing it to remain thin, pale and watery, they are not giving the natural life force of the body a chance to do their work. Iron is red blood food and in my experience I have found no better means for building the red blood corpuscles and helping to give increased power to the blood than organic iron—Nuxated Iron." Nuxated Iron comes in tablet form only and does not contain any ordinary metallic iron but only the finest quality of pre-digested organic iron which is easily assimilated by the blood.

LETTERS

Letters addressed to the Editor and intended for publication must be short and legibly written. The longer an article the shorter the chance of insertion. All communications must bear the name and address of the writer, but not for publication unless the owner wishes. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is taken by the paper for MSS. submitted to the Editor.

ANOTHER PERSON.

To the Editor:—I would like to assure all those who read a police court story in The Times Friday night that I am not the Arthur Johns who was charged with obtaining \$71 worth of goods and \$4 in cash from O. H. Doran by means of a forged cheque.

This man with the same name as mine is not known to me at all, nor is he related to me in any way. I go by the name of Arthur E. Johns, son of Alderman Albion Johns. I was born here, have lived here all my life and am known to most Victorians. I am on the sales staff of the Bege Motor Co.

ARTHUR E. JOHNS.
2544 Prior Street, Aug. 30, 1920.

SPORTSMANSHIP?

To the Editor:—In your issue recently I observed that Major Charles J. Glidden, of the Aero Club of America, predicted that in the near future the builders of Zeppelin dirigible balloons in Germany would plan a non-stop flight around the world. He stated further that the Zeppelin firm had long planned to win the distinction of accomplishing the first circumnavigation of the world by air and would make the attempt soon unless prevented by the Allies. There is a little ambiguity here and I am willing to give Major Glidden the benefit of the doubt; he may mean that the Allies shall prevent the Germans from being the first to circumnavigate the world by air by forestalling them. If this is his meaning I wish them every success but the article reads as though the Allies were to prevent the Germans from making the attempt and if it is to be taken as it reads then I hope it will be treated with the contempt it merits by all sportsmen. I think an explanation from Major Glidden would be in order. There is no merit in winning an uncontested race and still less in attempting to cripple an opponent for fear he may beat you.

SOLDIERS' CIVIL RE-ESTABLISHMENT

To the Editor:—This perplexing problem is only half solved and the most optimistic among us look with apprehension at the ultimate result. A valiant effort at re-establishment has been made, and many are established firmer than ever, but the majority have only changed their clothes.

The manhood of Canada must start afresh and make it a work of reconstruction which they must do themselves without the aid of a second person; not as returned soldiers but as citizens, self-reliant with a great task before them and a burden too heavy for other shoulders than their own.

Among the ranks of returned men in obscure positions are men of lofty ideals and master minds, and who, if properly organized, would be the leaders of the land, and bring prosperity in peace as they brought victory in war.

Soldiers organizations must be amalgamated and move like one man. Their institutions must be made the nucleus of business enterprise operated on co-operative principles to develop and unearth the wealth of the Dominion.

The majority of the people are returned men and their families, and the hands of her own people is the amalgamation of these now powerful organizations.

There are principals of usurpation in the various soldier bodies and their earnest endeavors and lofty purpose have won them the esteem and respect of both Governments.

Canada is a hospitable land, peopled by generous minds, and if we live under the shadow of dense forests and lack lumber to build a house, or dwell amid cornfields, lack bread, it is the fault of no individual or body, but a lack of that unity and singleness of purpose by which we accomplished so much.

Our aims and objects to-day are one: to bring prosperity back to Canada, but we pursue them along different ways, and in different moods. Amalgamation is in the air; we are unanimous in its favor, and our motives are right, so why delay the prosperity of Canada and the re-establishment of her men any longer.

J. A. BARRON
Chairman Publicity Committee,
G. W. V. A., Victoria, B. C.,
August 27, 1920.

REPLY TO MR. FOSTER

To the Editor:—May I, through the medium of your valuable paper answer a letter written by Walter Foster which appeared in a recent issue of The Times?

Apparently Mr. Foster does not mind how careless he uses the truth when he settles down to write one of his non-union letters.

As an old railroader, I take exception to his letter, because, while his statements are absolutely ridiculous on the whole, they may give some of the public a wrong impression. From my own experience and my present acquaintance with railroad men and their working schedule and rates of pay, I am in a position to know just how far W. Foster's letter is from the truth.

In one breath he ridicules the Labor Gazette and in the next uses it to back up his statements.

As an ex-service man and a Britisher, I ask that Mr. Foster refrain from casting any more reflections upon the honor of the men who fought for our country. No ex-service man, or real Britisher, desires the kind of work Mr. Foster suggests. Ninety-eight per cent of the railroad men of Canada are British and a great percentage of the said ninety-eight are returned men.

In regard to the rates of pay of railroad men, there is no class of skilled tradesman who receive a lower rate than locomotive engineers. And when you take into consideration the fact that the average life of an engineer (that is at his trade) is 12 years, they are entitled to a fair rate of pay. Unlike all other trades, when an engineer's or trainman's eyes or ears fail to pass the required periodical test, he is discharged, which means that he has

to take up some new line of work altogether.

The present rate of pay of an engineer in passenger service is \$5.50 for 8 hours, and a conductor's pay for the same service is less. Now ask, is that too great a wage to pay a man who has put in years of service to reach such a position? And, again, if by chance a man in either of the above positions should make a mistake (which is a thing we are all capable of doing) all his years of service are as naught, for unlike the ordinary tradesman who can move somewhere else and get another job at the same work, it is necessary for him to take up a new vocation or else start at the bottom on some other road.

Mr. Foster states that under the new rate Conductors will receive \$9.00 per day, for five hours' work. Now that he has made that statement to the public, I defy him to prove that the new rate of pay will call for anything near that amount. He would also like to give the public the impression that five hours will constitute a day's work. Eight hours as before will be regarded as a day.

In all my experience as a railroad man I have yet to see a Conductor reclining on the cushions as he claims they do, a big part of the time. And I do not believe there is anyone who has.

Mr. Foster's own son can explain to him the long hours, inconvenience and hardship that it is necessary to go through to become a railroad man.

Of course, the real intention of Mr. Foster's letter was, as usual, to get his little slam at organized labor even though he had to discuss something he knew nothing about.

Before I conclude may I ask (referring to his letter of Saturday) how he figures a trainman's usual dues at \$3.00 per month, amount to \$1.50 per week.

LET'S HAVE THE TRUTH!

LONDON SURGEON SAYS

TUBERCULOSIS CURES

ARE ALL FAILURES

Dr. Marcus Peterson Warns Against So-Called "Health-Resorts"

London, Sept. 1.—Many old theories regarding the treatment of tuberculosis are disputed by Dr. Marcus Peterson, resident medical officer of the Brompton Hospital, and long-time superintendent of various important sanatoria.

He holds that:

Pine trees do not help to cure consumption.

Great altitudes are not necessary for a consumptive patient.

No special diet is required.

A sea voyage or visit to the seaside may prove worthless.

Emigration or a change of air is not valuable.

There is no special value in a warm climate.

If any climate hastened the cure of tuberculosis, Dr. Peterson says, then the climate of respective "health resorts" should kill all the tubercular bacilli in the neighborhood or cure each individual immediately after infection.

Statistics show, he says, that all alleged health resorts have a constant death rate of native residents from the disease.

"If I had to choose between a home for tuberculosis in Colorado, where the treatment was on the lines of 'doing a little gardening, and a sanatorium in a London slum district, conducted by a man versed in the control of auto-intoxication and who had other necessary qualifications—a temperamental understanding of men and women—I should not hesitate to prefer the latter," concludes Dr. Peterson in a book he has just finished on the subject.

He said the central powers only succeeded in destroying as many Englishmen in one year of war as consumption destroys in every two and a half years of peace.

GREAT INCREASE

IN WORLD'S TONNAGE

London, Sept. 1.—While merchant ship building in the United States has been reduced by one-half since March, 1919, British shipyards are constructing nearly 15 times as much tonnage to-day as they did a year ago, according to figures just made public by Lloyd's Register.

The figures show that there were 3,578,153 tons of merchant shipping under construction in the yards of the United Kingdom at the end of June 1920. The total number of vessels building was 941 and of these 51 are between 12,000 and 20,000 tons; 68 between 8,000 and 12,000 tons; 100 between 6,000 and 8,000 tons; and there are between 20,000 and 25,000 tons.

The total merchant tonnage building abroad between April 1, 1919, and June 30 or 405,000 tons less than at the end of March which is accounted for by a decrease in the United States.

Attention is drawn in the returns to "an enormous decrease which has taken place in tonnage under construction in the United States during the last 15 months." At the end of March, 1919, 4,185,523 tons were actually building in that country, which total by the end of June, 1920, has been practically reduced by half while in the United Kingdom during

the same period, the figures have increased from 254,845 tons to the present record total of 3,578,153 tons.

The world's total is given as 2,195 vessels of 7,720,904 tons of which America contributes 414 of 2,105,355 tons; United Kingdom 341 of 3,578,153 tons; British dominions 115 of 268,192 tons; France 95 of 245,302; Japan 56 of 254,260; Holland 153 of 398,915 tons; Denmark 62 of 118,439; Italy 146 of 353,514; Norway 64 of 87,579; Spain 33 of 107,432; Sweden 73 of 125,899 tons.

MAKING HIMSELF USEFUL

"Golly, but I've tired!" exclaimed a tall thin negro, meeting a short and stout friend.

"What you been doin' to get tired?" demanded the other.

"Well," exclaimed the thin one, drawing a deep breath, "over to Brother Smith's dey, afe meaurin' de house for some new carpets. Dey haven't got no yardstick and I've just exactly six feet tall. So to oblige Brother Smith I've been a layin' down and a gettin' up all over deir house."—Pittsburg Chronicle Telegraph.

It was Nellie's first visit to the museum, and she was accompanied by her mother. Room after room they passed through, till at length they stood before a knight in shining armor.

"And this, Nellie," said the fond mother, "is a suit of armour which used to be worn by the knights of old. What do you think of it, dear?"

For a few seconds Nellie regarded it thoughtfully. Then she shook her head.

"P'raps it was all right," she said, doubtfully. "But don't you think, mother, it must have scratched the furniture awfully?"

HERE ON HOLIDAY

Two Parties From Honolulu Are Now Enjoying the Sights of the City

Two parties from the Hawaiian Islands are now in the city, registered at the Empress Hotel. One is headed by A. C. Bottomley, the other by J. Waterhouse. The Bottomley party reached here on Monday, while the Waterhouse party came down yesterday by automobile from a motor tour of the island.

Mr. Bottomley stated to The Times last evening that a considerable number of visitors might be expected to arrive just as a number of Vancouver Island people had wintered last season in the Hawaiian Islands. He states that the advantages of Vancouver Island as a resort are fully appreciated in the Islands, and the fame of the gardens at Bonavento, which his party visited yesterday, had travelled to Honolulu.

LOOKED LIKE IT

Says Punch: "Owing to heavy storms, 1,000 London telephones were thrown out of order. Very few subscribers noticed the difference." They must be copying our system over here.

GIVES PRACTICAL SUPPORT TO LOCAL MANUFACTURERS

J. O. Cameron Cites Strong Arguments Favoring Local Goods

"If the general public followed the example set by the many lumbering concerns which have their headquarters in Victoria, and insisted on using Victoria made products whenever they were obtainable, the industries of this city would be employing several hundred more people than they are at present," said J. O. Cameron yesterday, when discussing the forthcoming "Made in Victoria Week."

Mr. Cameron stated that practically all the lumber camps throughout Vancouver Island were supplied with Made in Victoria goods as a matter of policy, it being felt that the maintenance of well established manufacturing businesses, close to the mills and camps, not only acted as a close check on commodity prices, which otherwise would be entirely controlled from Eastern centres, but at the same time aided in building up this part of the country by distributing employment among many homes.

Critical Consumers.

As regards the quality of the goods made in Victoria Mr. Cameron pointed out that no consumers were more critical than the men who lived in the boarding houses operated at the logging camps, and no cooks were more difficult to please than the men in charge of those kitchens.

"So that it is obvious that, when we send out to those camps shipments of the varied locally packed foods, and retain our men in satisfied employment for months at a time, the quality of the goods must be, at the very least, equal to the product of eastern factories. The point is obvious," said Mr. Cameron. He pointed out that while the appeal to be made during the "Made in Victoria Week" will be directed rather towards the householder than the business man, yet there are important industries in Victoria which should be remembered by the business man. "Take for instance the hardware business. One large local concern every month receives from my firm alone somewhere around \$4,000. Whenever possible we insist that the goods needed shall be of local manufacture, and you would be surprised to know how many items that means in the course of a month," said Mr. Cameron.

Pledge Signers Gain.

Mr. Cameron maintains that experience has proven that the locally made goods are fully equal to any available on the market, and ranks himself as strongly in support of next week's drive for support for local industries. "The pledge signers will find themselves the gainers at the close of the experiment," he said. "To put into service and consumption articles made by one's neighbor is to keep the price paid in the community, to keep money circulating at home is to help build the prosperity of Victoria, and to assure to local manufacturers a surety of preference in their own home market is to induce them to undertake expansions and so cause an increase in employment. It is ourselves we serve when we use the home made goods."

"Yes, my dear," said Mrs. Ramsbottom, speaking of her invalid uncle, "the poor old gentleman had had a stroke of parenthesis, and when I saw him last he was in a state of comma."

EAT and Get Thin
This is turning an old saying face about, but modern methods of reducing fat have made this a realistic possibility.
If you are overfat, opposed to physical exertion; fond of the table and its good things, and still want to reduce your excess flesh several pounds, go to your druggist for write to the Marmola Co., 56 Garfield Building, Detroit, Mich., and give him (or send them) one dollar, thus insuring your subscription for a trial, slim figure, by receiving a good size box of Marmola Prescription Tablets (composed in accordance with the famous Marmola Prescription); take one of these pleasant, candy tablets after each meal and at bedtime, and you will lose your fat at the rate of two, three or four pounds a week.
This course the treatment until your weight is what you desire. Marmola Prescription Tablets are not only harmless but really beneficial to the general health. You don't need starvation diet or weakening exercises. Just go on eating what you like, leave exercise to the athletes, but take your little tablet faithfully and without a doubt that fleshy flesh will melt away into thin, trim, healthy, leaving behind it your natural self, neatly, clothed in firm flesh and trim muscles.

CHINESE BUDDHISTS PRAY AS HOLES ARE BURNED IN HEADS

At Close of Novitiate Cones of Incense Smoulder On Shaved Polls

Chang-chow, Kiang-su Province, Aug. 2.—Dr. John Dewey, American exchange professor at the University of Peking, visited Chang-chow recently in the course of a mission lecture tour of China, at a time when the city was observing a holiday and 1,000 Chinese Buddhists, becoming priests, suffered holes to be burned into their heads as a token of their religious vows.

The holiday was a spontaneous affair arranged by a group of devotees of the Chang-chow Buddhist monastery, then graduating a class of novices into the priesthood. Children had come from all parts of the country in response to a call the monastery sent out. The Buddhists at the same time honored the victims of the Taiping rebellion who were killed sixty years ago.

The Buddhist ceremony of ordination in China follows ancient lines that are barbaric—in the eyes of the Occidental—and this explains why the shaved polls of the priests, the traveler meets are marked with deep-pitted scars. The novitiate is a matter of forty days usually, and at its close, as a climax of the temple ceremony, upon the shaved heads of lines of kneeling novices are placed lighted cones of highly inflammable incense. These sink into the flesh as a chorus prayer issues from the throats of the assemblage. Upon the heads of the most devoted—those taking the "full vow"—is placed a circle of twelve smouldering incense heads.

Of the 1,000 who became priests at the recent ceremony here, 522 took the full vow whole, the others accepting lesser orders, were sent forth with fewer scars, some with but one and the rest from two to nine.

MORE THAN AVERAGE RAIN AND SUNSHINE IN MONTH JUST ENDED

With a temperature one degree above average, rainfall one inch above average and with forty-two hours more sunshine than average August ended was a most unusual month.

According to a report issued last night by F. Napier Denison, superintendent of the Dominion Meteorological Observatory, Gonzales Heights, the mean temperature for the month was 51 degrees, one degree above the average; the highest temperature, on August 8, was 54 degrees, and the lowest, on August 16, 46 degrees.

The total rainfall for the month was 1.61 inches, about one inch above the average of .62. Rain fell on three days, August 27, 28 and 29. The heaviest rain was on the 29th, when 1.01 inches fell. The precipitation during the last few days, therefore, was quite unusual.

There were 246 hours and 18 minutes of sunshine during the month—42 hours above the average, or an average of 11 hours a day. Indeed, every day the city enjoyed sunshine.

The WEATHER

Daily Bulletin Published by the Victoria Meteorological Department.

Victoria, Sept. 1.—5 a.m.—The barometer remains high over this Province and fine, warm weather is general on the Pacific Slope. The weather is fine in Alberta and rain is reported eastward to Manitoba.
